

# Youth Charges He Was Hired To Slay Mrs. Fifi Stillman

Prisoner's Statement Declares  
Five Men Were Implicated  
in Plot.

OFFERED \$25,000 FOR CRIME

New York and Kansas City Police  
Looking for Other  
Members of Group.

By United Press Leased Wire  
Kansas City, Mo.—Samuel R. Harris, 20, of New York, in a sensational  
copyrighted statement published Fri-  
day by the Kansas City Post declared  
he had been hired to assassinate Mrs.  
Fifi Potter Stillman.

He said he did not know who was  
back of the assassination.  
Harris, who was arrested here Fri-  
day, said he, with four companions  
was employed to do the killing.  
Before making this statement, Har-  
ris said:  
"I am hiding out here. My pals have  
doublecrossed me—I'll tell the truth.  
"I do not know who was back of the  
proposed murder," the statement  
quotes Harris as saying. "All I know  
is that I was hired to take part in it  
and had my instructions and that I  
received my expenses and money  
to carry out my part, under promise  
of receiving more—\$25,000 to be split  
four ways."

New York police have been notified  
and efforts were being made by  
Kansas City police to run down  
"Henry The Pole," "Tony The Wop,"  
and John Burke, supposed to be in  
Kansas City and implicated by Harris  
in the alleged assassination plot.

## YEAR'S TERM FOR STEALING A WIFE

By United Press Leased Wire  
Milwaukee, Wis.—A year in prison  
for stealing another man's wife, was  
the sentence imposed upon Andrew  
Jackowich, of Woodland, W. Va., here  
He was found guilty of eloping with  
the wife of Geo. Walenack. The wife  
was forgiven by her husband and  
given her freedom.

According to information received  
here, the persons mentioned in the  
above dispatch were employed in sugar  
beet fields near Bear Creek when the  
elopement took place. Aid of local  
authorities to find the missing couple  
was requested, it was said.

## RUSS INDIFFERENT TO KIND OF GOVERNMENT

New York—"If a czar were to set  
himself up in Russia tomorrow and  
proclaim that the peasants should  
retain ownership of the land, they  
would accept him with complete in-  
difference," according to Lewis Gan-  
nett, associate editor of the Nation  
today.

Gannett has just returned from a  
several months investigation of Rus-  
sian conditions and is the latest Ameri-  
can arrival from that country.  
The peasants who constitute the  
vast majority of the Russian popula-  
tion, are participating in the soviet  
administration but have no initiative,"  
he said.

"They made it possible for the bol-  
sheviki to repeal invasions by Kolchak,  
Denikin, Wrangel and others simply  
because they feared defeat of the  
soviets would mean a restoration of  
lordism."

"Lenin and Trotsky have now be-  
come too conservative for the com-  
munist element. But they have the  
confidence of a majority of the work-  
ers and the peasants will remain in-  
different so long as they have their  
land."

## ONE SLAIN; THREE BADLY HURT BY FORMER CONVICT

By United Press Leased Wire  
Petaluma, Calif.—Evelyn Grant,  
aged fourteen, was murdered and her  
younger sister, her grandmother and  
her father probably fatally injured  
early Friday by a man who broke into  
the Grant home here during the night.  
Later the body of Charles Hoffer,  
former convict believed to have been  
the assailant was found. He had killed  
himself.

Feeling was running high this  
morning and threats to burn Hoffer's  
body were made.

Hoffer was to have been arraigned  
today on a charge of attempting to  
assault the same girl he murdered.

## KID WITH TOO MANY TOES HAS 2 OF 'EM CUT OFF; KEEPS THEM

Chicago, Ill.—Willie Dykins, 11,  
who nature endowed with twelve  
toes couldn't stand the gaff from  
the other kids. He was operated on  
on Friday and the two extra toes  
removed.

"The kids used to call me 'Ducky'  
when I went swimming, and when I  
wore shoes, they called me 'Big  
Feet'." Willie told Dr. Karl Mayer.  
"Those toes took up a lot of  
room."

Willie asked the doctor to pre-  
serve the toes in a jar of alcohol so  
he would have something to  
show the kids that the other boys  
didn't have.

## Brewers Eager For Permits To Turn Out Beer

By United Press Leased Wire  
Washington, D. C.—The desk of fed-  
eral prohibition commissioner Haynes  
Friday was flooded with informal  
applications from scores of breweries  
for permits to manufacture beer for  
use as medicine.

Meanwhile the house and senate con-  
ferences were deadlocked on the anti-  
medicinal beer bill without sign of  
any quick getting together.  
The senate conferees insist on the  
Stanley amendment to the anti-beer  
bill penalizing prohibition officers who  
search private dwellings without a  
warrant, while the house conferees  
were determined to modify it.

## LEGISLATIVE JAM MAY DELAY RECESS FOR CONGRESSMEN

Lawmakers Have Much to Do  
Before Stopping for  
Month's Rest.

Washington, D. C.—Congress Fri-  
day was in a legislative jam that  
threatened to prevent the month's  
recess scheduled to begin Wednesday.  
The chief obstacles in the way of a  
recess are:

- 1—The Longworth bill extending the  
dye embargo with the senate amend-  
ment extending the emergency tariff bill.
- 2—The deficiency bill carrying \$48-  
500,000 for the shipping board and  
\$200,000 for the expenses of the dis-  
armament conference to which Sen-  
ator Harrison has offered an amend-  
ment to put the senate on record as  
favoring publicity at the parity.
- 3—The anti-medical beer bill.

The trouble over these bills centers  
in the senate. The McNary bill to aid  
farmers through the war finance cor-  
poration seems likely to pass the  
house and be ready for the president's  
signature by next Wednesday and the  
tax bill has clear sailing.

Before the recess, President Har-  
ding wants:  
1—The tax revision bill passed in  
the house and sent to the senate  
finance committee for consideration  
during the recess.

2—The railroad relief bill passed by  
both houses.

3—The McNary farm aid bill passed  
by both houses.

## BELIEVE WAUSAU SLAYER IS INSANE

Wausau, Wis.—Jake Kafnetka, her-  
mit confessed slayer of Carl Wen-  
zauer, wealthy bachelor farmer of  
Mosinee, Wis., will be examined for  
his sanity before placed on trial for  
the crime. Marathon county officials  
said Friday.

Kafnetka's story of the killing com-  
pelled the officers of the necessity of  
having the hermit examined by alien-  
ists.

"I killed Wenzauer because he said  
I was crazy," Kafnetka told Sheriff  
Schroeder.

"It was hunting on Wenzauer's  
farm. He ordered me off. Wenzauer  
said 'get off my place; you ought to be  
in the asylum'," Kafnetka said.

The hermit said he obeyed Wen-  
zauer and went home where he got  
a shot gun, loaded it with buck  
shot and returned after dark to the  
Wenzauer farm.

"Wenzauer was sitting in a rock-  
ing chair reading a newspaper. I shot  
him through the window. Then I went  
to the barn, hitched up a team to a  
mower and drove away."

Officials said Kafnetka did not  
know his age but he thought he was  
about 45. He wasn't sure of his  
birthplace but believed he was born  
near Bear Creek, Wis.

The prisoner told the story of the  
murder calmly and without express-  
ing regret.

The shooting of Wenzauer occurred  
Monday night and the body was not  
discovered until Tuesday night.

# Britain Has Gone Limit In Its Peace Offer To Ireland

## Irish Are Preparing For Battle

Republican Army Observes  
Truce Requirements But Is  
Getting Ready to Resume  
Hostilities—Hear Dail Eir-  
eann Has Rejected Peace.

By United Press Leased Wire  
Dublin—The Irish republican army  
was Friday preparing for renewed  
warfare, while the Dail Eireann was  
reported to have rejected the British  
peace terms, and to be formulating  
counter proposals.

Members of the Sinn Fein parlia-  
ment will discuss the proposed coun-  
ter proposals individually over the  
weekend, will meet Monday in secret  
session to draft the Dail's reply and  
will make the public announcement  
on Tuesday, it was believed.

Meanwhile the Sinn Fein army with-  
out breaking the conditions of the  
truce, was making ready for the  
worst.

The principal visible activity of the  
Irish republican army was to guard  
the Mansion house during the Dail's  
meetings. Informers if they could get  
into the meeting, could gather in-  
formation that has never before been  
generally available, as the heads of  
various departments of Sinn Fein were  
reporting upon their resources.

The few hundred Irish Republican  
army troopers on guard Friday hardly  
filled the descriptions "murderers"  
and "thieves." On the contrary  
they appear as clear-eyed, good na-  
tured lads of the best Irish type, tak-  
ing their work extremely seriously  
and enforcing the slightest order  
more rigorously than professional sol-  
diers.

People paid them little attention as  
they walked the streets in pairs.  
Dublin castle, whose occupants are  
virtual prisoners, never venturing out  
except in a armed cars, has been still  
more heavily guarded during the  
truce. Officials now have tennis courts  
inside the walls because they feel they  
are not safe outside.

## WANT JURY TO PROBE MADISON 'MOONERS'

By United Press Leased Wire  
Madison, Wis.—A county grand  
jury to investigate bootlegging and  
moonshine manufacture in Madison  
loomed as a real possibility Friday.

With the courts grinding out more  
drunk cases per week now than they  
did during wet days, the situation  
here is said to be beyond the power  
of the local police and the state and  
federal prohibition authorities. Raid  
after raid on Little Italy has failed  
to reveal the source of the big traf-  
fic.

Last week eighteen homes in Little  
Italy were raided by the police on  
orders of Mayor Kittleson. Despite  
the fact that the officers had definite  
information that moonshine was be-  
ing openly sold in these places, the  
police found less than a pint. No stills  
were uncovered.

Each raid planned has been tipped  
off to the Italian district, it is said.

## WATCH FOR ANOTHER BOAT LOAD OF CANADIAN RUM

By United Press Leased Wire  
Cleveland, Ohio—Police Friday were  
keeping watch for another booze laden  
ship reported to have sailed from  
Canada and destined by the same  
alleged whisky ring as the Venice,  
captured yesterday.

The boat left Canada some time ago,  
and is reported enroute to Cleveland,  
ignorant of the fate that has befallen  
the Venice.

The principal figure among the pris-  
oners captured on the Venice is Cap-  
tain William L. Curry of Toronto. He  
admitted being master of the captured  
booze runner Tranquillo, which car-  
ried 197 cases of high grade whisky.  
During the past year, according to  
Prohibition Agent Counts, Curry said  
he had piloted several cargoes of the  
contraband.

## U. S. IS FRAMING TEMPORARY PACT WITH FORMER FOE

Treaty Negotiations With Ger-  
many Are Cloaked in  
Absolute Secrecy.

By DAVID LAWRENCE  
Copyright, 1921, by Post Pub. Co.  
Washington.—A special agreement  
in the nature of a protocol will pre-  
cede the negotiation of a treaty of  
peace with Germany.

This agreement may not be submit-  
ted to the senate. It will be a sort of  
modus vivendi or temporary arrange-  
ment which will permit commercial  
relations with Germany to be resumed  
immediately and enable the president  
to issue his long delayed proclamation  
of peace.

The agreement will be brief in char-  
acter and along general lines. It will  
preserve America's rights under the  
armistice and subsequent treaties  
closing the European war and will  
form the basis for a formal treaty  
eventually to be negotiated.

The United States government has  
made a special request of the German  
government that the exchanges with  
that government with respect to the  
agreement shall be kept absolutely  
secret. The reason for the injunction  
of secrecy is not divulged here.

Members of the senate foreign rela-  
tions committee have learned informally  
of the progress of the exchanges  
between the German government and  
our state department and they predict  
that the formula adopted by President  
Harding and Secretary Hughes will be  
received with satisfaction because for  
the next three to six months at least  
America will be able to send com-  
mercial relations while the more tedious  
task of meticulously safeguarding  
America's rights under the many econ-  
omic clauses of the Versailles treaty  
will be carried on. Eventually the new  
treaty with Germany will, of course,  
have to be submitted to the senate.

Politically speaking, the postpone-  
ment of formal peace negotiations  
with Germany will assist President  
Harding to the extent that as time  
goes on the bitterness over the old  
treaty fight may gradually vanish  
and if it is found essential to para-  
phrase whole sections of the Versailles  
treaty opposition may not be as strong  
as it would be now from those sen-  
ators who have announced that not a  
particle of the Versailles treaty will  
they ever approve.

The department of state maintains  
its cloak of secrecy on the theory  
that the negotiations of a modus  
vivendi is not necessarily a public  
affair. Many such agreements of  
conventions have been negotiated in  
the past, like the Lansing-Ishii agree-  
ment for instance, which remained a  
mystery until the date the text was  
formally agreed upon and announced.

Word received here from Berlin in-  
dicates that the Germans approve of  
the American plan and that the Ger-  
man reichstag is being consulted so  
that all political parties there will in  
a sense be committed to the pledges  
made in the special agreement with  
the United States. It will be recalled  
that China and Germany have a  
special agreement too, inasmuch as  
China refused to ratify the Versailles  
treaty. Germany, however, in nego-  
tiating in the special agreement with  
China absolutely declined to reaffirm  
in general terms the Versailles treaty  
and it meant another acknowledgment  
of responsibility for the war and  
it was stated officially by the  
German government, such an act  
might prejudice Germany's chances to  
get the Versailles pact revised. There  
is a hint that similar pitches have oc-  
curred in the negotiations with the  
United States which have already  
taken more than five weeks.

Although the German government  
has seen fit to take all the political  
parties into its confidence, the Demo-  
crats in the United States senate pro-  
pose to be absolutely unacquainted  
with the character of the negotiations  
with Germany. It is said that some  
members of the senate foreign rela-  
tions committee are opposed to the  
holding of any formal session at which  
information from the executive branch  
of the government would be vouch-  
safed. They contend that it would be  
unwise to give information to their  
political opponents. On the other hand,  
personal terms with the folks at the  
executive end of the government are  
finding no difficulty in learning just  
what is going on.

## TWO MINE ENGINEERS CHASED OUT OF TOWN

Sullivan, Ind.—Fifty masked men  
swooped down on the Glendora mine  
near here last night and ordered Fire-  
man Roy Settles and Engineer John  
Brown to "put out your fires and  
beat it."

Settles and Brown obeyed the order  
and no violence was attempted.  
A similar raid was conducted last  
Saturday night against the Peerless  
mine, where Fireman Sam Cobb and  
Engineer Wilson Fry were ordered to  
leave.

## GUARDS FRUSTRATE PLOT TO LYNCH 3 PRISONERS

By United Press Leased Wire  
Barnstable, Mass.—A crowd of angry  
citizens armed with axes, crowbars  
and sledgehammers, marched on the  
county jail Friday and demanded the  
handing over of three men whom they  
intended to lynch for an alleged brutal  
attack on Miss Helen Butler and  
her escort on a lonely Cape Cod road.

Jail authorities refused to surren-  
der the prisoners.  
The demonstrators were about to  
storm the jail in the hope of dragging  
out the men when guards fired volleys  
in the air.

The crowd fell back and within an  
hour had dispersed.  
Miss Butler's statement that she  
had no doubt of the prisoners being  
the men who attacked her is being  
checked by the authorities.

The three prisoners are Joseph An-  
drews, John H. Gomes and Benjamin  
Gomes.

## FRENCH SERIOUS ABOUT DISARMAMENT MEETING

Paris.—"After Washington, we will  
breathe again,"  
Marcel Etlin, famous French jour-  
nalist, in an interview with the Unit-  
ed Press Friday declared that he re-  
flected the opinion of France, when  
he said that the disarmament confer-  
ence proposed by President Harding  
is taken very seriously here.

"The conference must mark the  
date of the resumption of world se-  
curity," Etlin affirmed.  
"The sympathy of France towards  
the United States has been height-  
ened by the initiative of your presi-  
dent," he said, "and it would be dis-  
pleasing if the disarmament confer-  
ence should not be the immense suc-  
cess which we expect."

"Public opinion here upholds Prem-  
ier Briand going personally to Wash-  
ington. It is hoped that the question  
of upper Silesia can be first settled, so  
that nothing can prevent Briand's go-  
ing."

## Warns Erin Of Ruin If War Resumes

Lloyd George and Lord Curzon  
Tell Parliament That Only  
Criticism of Great Britain's  
Peace Plan Is Its Generosity.

By United Press Leased Wire  
London.—Lloyd George in the house  
of commons and Marquis Curzon in  
the house of lords Friday told the  
British parliament that the govern-  
ment had gone the limit in its offers  
to Ireland.

"The government has gone to the  
extreme limit in its concessions to  
Ireland," Marquis Curzon declared.  
The British foreign minister con-  
tinued:

"The only possible criticism of the  
terms is that they are too generous.  
"We have offered all that is possible  
without compromising the safety of  
the realm, the sovereignty of the  
crown and the unity of the empire."

"It is inconceivable that Ireland  
should consent to a resumption of the  
quarrel," Curzon continued.  
"Separation would infallibly mean  
the economic ruin of Ireland."

"If the government is challenged it  
will not quail before its difficult  
task."  
While Curzon was telling the lords  
that the government had "gone to the  
extreme limit in its offers," Lloyd  
George reverted to the commons that  
"the government is already said  
all it has to say in its letters to De  
Valera."

Irish are Suspicious  
The premier warned an anxious  
house that there was great danger of  
misrepresentation and misunderstan-  
dings at the present stage of the Irish  
negotiations.

"The Irish atmosphere is always  
full of suspicion," he said.  
"I have heard no suggestion from  
any part of the world save Ireland,  
that this government had not gone to  
the very limits of possible concession  
in its offer to Ireland," Lloyd George  
said.

"We have offered everything that  
we possibly could in order to pur-  
chase peace and the good will of the  
Irish people."

"Should our terms be rejected,"  
Lloyd George said emphatically, "we  
will be faced by a graver situation  
in Ireland than any that has previously  
confronted us."

"Rejection would unmistakably  
challenge the authority of the crown  
and the unity of the empire."

"The British government is sincere-  
ly desirous of peace in Ireland." This  
was Lloyd George's final message to  
commons before its adjournment.

In the event of a final rejection of  
the terms by the Dail Eireann, be-  
yond hope of negotiations, he said  
that it would be necessary for the  
executive council to consult with com-  
mons and secure its approval or dis-  
approval of steps which the govern-  
ment proposes to take.

## U. S. Is Pleased

Washington.—Lloyd George's state-  
ment to the house of commons that a  
settlement of Pacific affairs must pre-  
cede disarmament found agreement  
here today.

This government considers such a  
settlement in the forthcoming disar-  
mament conference very desirable, it  
was explained in authoritative quarters  
Friday.

It was stated further that such an  
understanding rests entirely on the  
recognition of proper principles and  
policies and their application. After  
that peace in the Pacific is regarded  
as a simple matter of international  
cooperation.

## No Chance For Wilson To Be U. S. Delegate

Underwood and Pomerene Sug-  
gested as Probable Demo-  
cratic Members of U. S. Dele-  
gation at Disarmament  
Conference.

By United Press Leased Wire  
Washington, D. C.—Woodrow Wil-  
son and those who supported him most  
strongly in his fight for the league of  
nations have been eliminated in con-  
sideration for a Democratic member  
of the American delegation to the dis-  
armament conference, it was learned  
Friday.

In administration circles, it was  
made plain that Wilson who was sug-  
gested by Senator Hays of Utah, would  
not be named. At the same time it  
was regarded as unlikely that Presi-  
dent Harding would go to the other ex-  
treme and select any Democrat  
who had openly opposed the league  
because of the danger of alienat-  
ing the Democratic support he is  
now receiving on the conference.

The prospect of elimination has so  
far resulted in making the names of  
Senator Underwood of Alabama and  
Senator Pomerene of Ohio stand out  
as the most likely of Democratic can-  
didates. Harding is said to be consid-  
ering the appointment of one of them  
which, according to all indications  
would please the majority of Demo-  
crats.

It is now possible that the session  
of the conference will be in the Pan-  
American union building. The D. A.  
R. hall and the Corcoran art gallery,  
both near the Union building will be  
offered for committee meetings dur-  
ing the conference.

Basil Miles, department official, has  
held a meeting with Washington real-  
estate men to arrange for housing  
delegates, correspondents and visitors  
during the conference.

It is expected that more than 10,000  
persons will be here.

## RAW FUR PRICES FAR BELOW LEVELS OF 1920

By United Press Leased Wire  
Winnipeg, Man.—A remarkable  
drop in the price of raw furs has oc-  
curred since the last big Canadian fur  
auction sale—the Montreal trading  
some months ago—and the skins at  
the sale here Friday are down, in some  
cases, as much as 30 per cent.

The prices showed big declines, the  
best silver fox pelts selling at \$250  
and some as low as \$90.  
Beaver hides showed a big reduction,  
selling at \$18 as compared with \$30  
at the last sale. Marten and otter  
were the only skins showing strength,  
selling around \$20.

## Meat Baron Encouraged By Trend Of Business

By Harold D. Jacobs  
By United Press Leased Wire  
New York, N. Y.—The meat  
packing business, one of the largest  
industries in the country, is rapidly  
getting back to a normal basis.

In practically every line the pack-  
ers are experiencing a substantial in-  
crease over prewar business, and the  
export trade is evincing "encouraging  
proportions."

"If the tone of trade in what is pro-  
bably the nation's largest industry—  
meat packing—is any criterion of gen-  
eral business, all manufacturers of es-  
sential commodities can face the Im-  
mediate prospect with some degree of  
confidence," Thomas E. Wilson of  
Chicago, recently re-elected president  
of the Institute of American Meat  
Packers, declared in a telegraphic  
statement to the United Press Friday.  
Wilson said that during the period  
of depression packers often sold their

## DRESS HAS A VAMPIRE NAME BUT IT HAS THE APPROVAL OF W. C. T. U.

By United Press Leased Wire  
San Francisco, Calif.—This  
ladies and gentlemen, will intro-  
duce the "Chameleon gown."

It changes not only its colors  
but its five in one—afternoon  
gown, an evening gown, a street  
dress and two variations of long  
and short sleeves.

While its name is sufficiently  
reptilian to suit the most ag-  
gressive vampire of Hollywood, it  
commends itself to the ultra con-  
servative for—this is the big se-  
cret—it is sponsored by the  
Women's Christian Temperance  
union, now holding its national  
convention here. The gown will be  
displayed here this afternoon at  
a fashion show at which there  
will not be a dimpled knee, a silk  
encased calf, a snow white neck,  
a rough cheek—not even a  
French heel—in evidence.

## PLUMBING JOB AT HOSPITAL GOES TO MILWAUKEE FIRM

Seven Bids Submitted—Wiring and Heating Contracts to Be Let Soon.

J. A. Maag and company, Milwaukee, was the lowest bidder on the plumbing for the new St. Elizabeth hospital and was awarded the contract by the building committee Friday morning at a cost of \$44,942.

Seven bids were filed, two of them by Appleton firms. They were: W. H. Halsey and son, Milwaukee, \$45,480; J. A. Mohr and son, Milwaukee, \$45,700; Ryan and Long, Appleton, \$52,800; Joseph D. Martin, Chicago, \$49,000; W. S. Patterson and company, Appleton, \$53,350; McNamara and company, St. Louis, \$46,025.

All plumbing fixtures called for in the specifications will be the best obtainable, including many of the newer lavatory devices. There will be toilet and bathrooms on each floor, and private lavatories connected with a number of suites of rooms.

Bids for wiring the buildings will be opened next week according to John Conway, chairman of the building committee, and the heating contract will be awarded within 30 days.

## PUBLIC BENEFITS BY SALE OF W. & N.

Passenger Fares Automatically Reduced to 3.6 Cents a Mile Sept. 18.

Lower passenger rates and reductions in freight tariffs under some classifications are among the benefits the public will derive from the transfer of the Wisconsin and Northern railroad to the Soo line, effective Aug. 1.

Passenger rates on the former W. & N. road were 4 cents a mile as granted by the railroad commission because the company operated wholly within Wisconsin. The Soo line does an interstate business, therefore is obliged to conform to the customary passenger rate of 3.6 cents a mile authorized by the commission on all roads. New tariffs to be put into effect Sept. 18 provide for an adjustment to the lower rate. Passengers will save 4 cents on each 10 miles in this way.

Local class freight rates on the Wisconsin and Northern division will be lowered slightly under the new schedules. Class and distance rates between stations on the former W. & N. and Soo will be less because the shipment will be treated as passing over one line instead of two. This will make a difference of several cents a hundred pounds on many items, will save switching charges and will help reduce operating expenses.

It is reported that the Soo line will install a telegraph line from Neenah to Argonne to replace the present telephone system. Rumors also are afloat that the roadbed is being put in shape so fast limited trains can operate between Chicago and Sault Ste. Marie over this short cutoff of more than a hundred miles.

## MANY INTERESTED IN ROUNDUP OF CALVES

Many residents of the county are expected here Saturday afternoon for a roundup of the First National bank calf club at 1:30 in the Oneda-st. parking square. Competition has been keen among the embryo breeders, and parents, relatives and friends are anxious to see which six of the youngsters will go to the state fair in Milwaukee with their animals.

Judge of animals by Prof. R. S. Hulce will start as soon as the calves arrive. They are to be assembled at Dr. Madison's barn in the morning and will be paraded to the square early in the afternoon. Paul O. Nyhus, farm agent of the bank, has charge of the arrangements.

**Elected Delegate**  
Joseph Drexler, lieutenant of fire company No. 2, has been elected official delegate to the Appleton fire department to the convention of the Wisconsin Firemen's association in Milwaukee Aug. 30, 31, Sept. 1 and 2. Louis McGowan of company No. 1 is president of the state association and expects to attend.

**Dinner Party Invitations**  
Mr. and Mrs. Charles Boyd, 732 Lawrence-st., have issued invitations to a dinner party to be given Saturday evening at the Riverview Country club.

## The Weather

**FORECAST FOR APPLETON**  
(By Schaefer Cycle-Stormograph)  
Cloudy and warmer, followed by unsettled.

**FORECAST FOR WISCONSIN**  
(Official)  
Generally fair tonight and Saturday preceded by thunder showers this afternoon or tonight in northeastern portion. Cooler.

**WEATHER CONDITIONS**  
Unsettled weather with thunder showers prevailed over Lake Superior region. Elsewhere weather is generally fair. Changes in temperature have not been important.

## TEMPERATURES

## MENASHA-NEENAH NEWS

### URGE COUNCIL TO ESTABLISH ZONES FOR RESIDENCES

Neenah Aldermen Hear Petitions—Auto Accident on Oshkosh-rd.

Neenah — The regular meeting of the common council of Neenah was held Thursday evening.

The petition for the sidewalk on the south side of Washington-ave. from Elm to Pine-sts., was presented and referred to the committee on sidewalks and street crossing.

The petition for the sewer on Union-st., from Main to Sherry street was presented, read and referred to the Board of Public Works.

Application for licenses to sell non-intoxicating liquors were read and referred to the committee on Police and Health.

The request of I. F. Strubel to install a gasoline pump in front of his warehouse on Main-st., was presented, read and referred to the Board of Public Works.

Communication from the Eastern Wisconsin Electric Co., relative to securing the city against loss through financing its portion of the pavement on Main-st., was read and referred to the finance committee and city attorney.

The petitions of the citizens requesting that the council repeal ordinances relative to the operation of its motor buses were presented and referred to the committee on streets, highways and bridges and the city attorney.

Petitions of citizens requesting that the council take action establishing that portion of Commercial-st. from the Fox river to Forest-ave. as residential sections were read and referred to the board of public works and the city attorney.

The rules were suspended and attorney C. D. Velti addressed the council in behalf of the above petitions and declaring that the erection of a gasoline filling station at the corner of North Water and North Commercial-sts. would be a nuisance and interfere with services in his church.

The motion of declaring that portion of North Commercial-st., between the Fox River and Forest-ave., a residential section was then discussed by the council.

Alderman Laurson moved that the board of public works and the city attorney go into the above matter and ascertain whether or not it is possible for the council to adopt such an ordinance and if so that the council hold a special meeting the first part of next week to take such action.

A warm discussion was entered into by the members relative to the matter of financing the moving of the tracks of the Eastern Wisconsin Electric on Main-st. Nothing was done except adjourn until the next meeting of the council.

City attorney George Kelly was instructed not to enforce the ordinance until it was ascertained whether they were wanted to existing conditions.

The Neenah fire department was called out about 2:30 Thursday afternoon to extinguish a fire on the Harrison road. Someone was smoking fish in a barn and a neighbor, seeing the smoke curling from the barn turned in the alarm.

A business meeting of the stockholders of the Neenah baseball association was held Thursday evening at the Neenah city offices. The matter of a post season series of baseball games between Menasha, Appleton, Oshkosh, and Fond du Lac was the subject of discussion. The local management already has the consent of the Oshkosh and Fond du Lac organizations and now needs only the consent of Appleton. A committee was appointed to gain the consent of the Appleton association if possible and to arrange all the necessary details. The proposed tournament would consist of a series of four games to be played after the regular baseball season.

Miss Ruth Verwey of Menasha, entertained number of friends at a luncheon at Hotel Menasha Friday noon in honor of Miss Eunice Brooks of Menasha, who is to be married in October to Edward Aylward of Neenah.

A number of people narrowly escaped serious injury Thursday afternoon on the Oshkosh-Neenah-rd. when a Peerless touring car owned by Frank Leavens of Neenah and a Ford touring car driven by some stranger collided with each other when rounding Brook's corner. The Peerless was not damaged but the Ford turned over in the ditch. None of the occupants of either car was injured.

The funeral of the late Mrs. P. Miller was held at 1:30 Friday afternoon from the home of Mr. and Mrs. Joseph Miller, First-st., Neenah and at 2 o'clock from St. Paul Lutheran church in Neenah. A large number of out of town people attended the funeral.

A daughter was born to Mr. and Mrs. William Sosenbrenner Thursday morning at their home on Broad-st., Neenah.

Art Cutman of Menasha visited at DePere Thursday.

Walter Thorday of Menasha is confined to his home on Nicolet-blvd., Menasha, on account of illness.

Mr. and Mrs. George Williams of Fond du Lac are visiting at the home of Mr. and Mrs. Charles Williams in Neenah over the weekend.

A daughter was born Friday morning to Mr. and Mrs. James Fitzgibbon of Menasha at Theda Clark hospital.

### MENASHA EXPECTS HARD FIGHT SUNDAY

New London Primed for Baseball Game—Leans Accept Challenge of Fats.

Menasha — The Menasha baseball team of the Fox river league is to play the New London team at New London next Sunday afternoon. The local management made an effort to bring the game to Menasha but New London refused to transfer it. Both teams have been strengthened considerably the last week. New London showed her present strength in the game with Oshkosh last Sunday when Oshkosh eked out a 3 to 2 victory, and this only when a New London player missed a short fly from Stevenson's bat. The Menasha team has been strengthened by two new players both reputed to be good hitters. Mason of the Nash Motor Car Co.

was "The Non Christian Religion in America."

Max Dimbrowski, Menasha, who was arrested here sometime ago on the charge of manufacturing moonshine whiskey pleaded guilty when arraigned in Municipal court in Oshkosh and was sentenced to pay a fine of \$200 and costs or spend six months in the county jail. He paid the fine.

**Dancing Party**  
Invitations have been issued for a dancing party to be given Monday evening at the Riverview Country club by Mr. and Mrs. Kenneth Dickinson and P. S. Dickinson in honor of Miss Sylvia Smith and Donald Shepard of Neenah.

**ATTENTION, FARMERS!**  
The Sorghum Mill formerly operated at Greenville Station has changed its location to Henry Koehnke farm, 2 miles East of Greenville Station, and one mile North. PHONE 12F2 GREENVILLE LLOYD KOEHNKE

team and Danny McKay Three I leaguers have been signed.

The "Leans" baseball team of Menasha, who now call themselves The All Stars have accepted the challenge of the "Fats" to a third and deciding game of baseball to be played Saturday afternoon at the city ball park.

The "Leans" claim that they were merely waiting to draw out the "Fats" and this little ruse was part of their scheme. A purse of \$200 has been deposited by both teams with the city clerk, the winner to donate the whole sum together with the gate receipts for the benefit of the city recreational grounds.

The annual picnic for the Sunday school children of the Trinity Lutheran church in Menasha is to be held Saturday afternoon at the city park. A fine program has been arranged, including games, entertainment and prizes for the children.

A number of Neenah young people enjoyed a ride to High Cliff on Thursday evening in the Sorenson launch. The young people had a wiener roast there before making the return trip.

The ladies Aid society of the Danish Methodist church of Neenah met Thursday afternoon at the home of Mrs. Fred Smith, Winnebago-ave.

The Women's Missionary society of St. Paul English Lutheran church of Neenah met Thursday afternoon at the home of Mrs. Hugh Clark 226 Second-st. The topic for discussion

### FORESTER HOME ASSN. ELECTION

Walter Stilt, Michael Farrell and James H. Ballet were elected directors at the annual meeting of Foresters Home association Thursday evening. Mr. Ballet takes the place of Wenzel Hassenman and the other two directors were reelected.

It was brought out at the meeting that more than 50 per cent of the original cost of the home, in addition to the improvements, were paid during the year.

The athletic section is making preliminary arrangements for a bowling league which will be organized within the next few weeks. The dramatic program for the coming year was left entirely to the dramatic section.

The new home is being used more and more by members as a club room or social center and this is encouraged by the association.

Mr. and Mrs. A. A. Hooper, who have been the guests of Mr. and Mrs. Joseph Marston Jr., 668 Law-st., have returned to their home in Wausau.

### THRESHING CREW GETS BIG SCARE

Members of Michael Kohl's threshing crew made a quick dash for safety Thursday morning when a gasoline tractor was enveloped in flames caused by backfiring of the engine as the threshing outfit was being towed up Breitung's hill, on the town line-rd. between Freedom and Center. One of the men unhooked the separator so it could be pushed downhill out of reach of the flames.

The fire consumed the oil around the engine, emitting a cloud of black smoke, then died down without causing the gasoline in the tank to ignite or explode. The tractor was disabled but continued its journey late in the afternoon after repairs had been made.

Many circus workers are Y. M. C. A. members. To be a circus employ does not imply that one is a tough character and without principles even though the popular belief is that a circus man is not to be trusted. Not less than 15 property men of the Ringling Bros. Barnum and Bailey circus appeared

at the Appleton Y. M. C. A. during their stay here and enjoyed privileges as members of the association after showing cards designating the bearers as Y. M. C. A. members.

Several cards were made out in eastern cities, Boston and Brooklyn in particular. A few members came from Davenport, Iowa, and one or two were dated from Atlanta, Ga.

## RAILROADS WANT QUICK ADJUSTMENT OF FREIGHT LOSSES

New Rules Governing Inspection of Freight Become Effective Here.

W. B. Basing, local station agent of the Northwestern Railway Co., has received a copy of regulations governing the inspection of freight before or after delivery to the consignee and adjustment of claims for loss or damage thereon which is of interest to shippers generally.

Loss of or damage to contents of packages not definitely known to exist at time of delivery by carrier to consignee may be due to negligence in packing, handling or unpacking, or abstraction from containers, and is the subject of frequent claims and controversies.

The rules provide when a package bears indication of having been pil-

### FOR SALE

New Potatoes, delivered to your door at \$3.75 per 100 lbs. Cash with orders. Address Art Campbell, Clintonville, Wis.

ferred while in possession of carrier, it shall be carefully weighed by the delivering agent before delivery and such weight indorsed on the freight bill and a joint inventory of contents of package by carrier and consignee shall be made before delivery or immediately upon receipt by consignee and claim for shortage so discovered shall be promptly adjusted.

Loss or damage discovered after delivery of shipment to consignee shall be reported by the consignee or consignee to agent of carrier immediately upon discovery and in any event within three days after receipt and contents and container held for inspection by carrier, with a statement of facts or circumstances evidencing loss prior to delivery by carrier.

Shortage from a package delivered consignee without inspection when based only upon the consignee's failure to find the entire invoice quantity in package or when package remains in possession of consignee more than 15 days before the goods are unpacked and shortage discovered shall not be regarded as a responsibility of the carrier unless investigation develops that loss occurred with carrier.

Shortage or damage discovered by consignee at time of receiving freight in any quantity from car, warehouse or other premises of carrier shall be reported to agent of carrier before removal of entire shipment.

Notice of loss or damage may be given carrier's agent by telephone or in person and in either event shall be confirmed by mail.

### SIMON COMPANY PUTS BRANCH PLANT AT MERRILL

The Simon Cheese Co. of Appleton Junction has purchased the Armour property at Merrill which it will use as a branch factory in supplying its trade at LaCrosse, St. Paul and Minneapolis. Improvements costing twice the purchase price of the property are to be made and a carload of machinery is now enroute to Merrill.

The new plant will give employment to a large number of persons and will use the product of 12 cheese factories. The completion of the new branch will lessen the pressure of the Appleton Junction plant and enable the company to take on more business and fill Chicago territory orders more promptly.

## Tourists Are Hustling Home As Fall Nears

Sweet summer's on the wane!

The murmuring of thousands of motors as reluctant autoists guide their land craft southward and homeward through Appleton is effective testimony to this fact. Yes, the tourists are going home and many a stormy wind shall blow before they come back again.

The number of tourist automobiles that have passed through the city since June 1 has mounted up into the thousands. A considerable number have accepted the hospitality of the city and have camped, both going and coming, at Alicia park. In every case they have been much pleased with the conveniences and privileges offered them and have frequently expressed their thanks to Park Supervisor George Merkel.

Never before has camping equipment been so extensively used by motorists. Nearly every tourist car seen on Appleton's streets carries canvas tents, close-reefed, and other camp paraphernalia which fits magically into tiny spaces. The call of the great outdoors has been irresistible this year and the haunts of man have been avoided as much as possible. However, local hostilities both for the man and his machine have done a satisfactory tourist business, it is said.

### FINE POTATO CROP IN NORTHERN MICHIGAN

Prospects of a fine potato crop in northern Michigan are very encouraging according to W. H. Hackleman who in company with his family and Albert Herrmann spent the early part of the week touring that part of the state.

In the mining sections, Mr. Hackleman said, there is no prosperity due to the fact that ore is not moving. A large number of young men are buying cutover land in that country and are clearing it for farming. Much state road work is being done there and the work on Michigan highway 26 which is a continuation of Wisconsin highway 32 is particularly fine. Considerable damage has been done by forest fires and large devastated tracts were encountered by the tourists.

GIRLS! LEMONS  
WHITEN SKIN AND  
BLEACH FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate. adv.

## CIRCUS DAY PASSES WITHOUT DISASTER

Efficient Police Measures Keep  
Crowds Moving and Prevent Accidents.

Appleton emerged from circus day with a wonderful record, considering the vast throng and the hundreds of automobiles that choked the streets and grounds all day Wednesday and up to a late hour at night.

Not an accident was reported to the police, nor were there any cases of pickpocketing, robbery or other crimes. The only marring incident was the theft of two bundles of paper from a freight car by three Negroes, but the articles were recovered and the men arrested.

"I regard it as remarkable that there were no accidents or no cases of sickness," said Chief George T. Prim of the police department. "There was some confusion and crowding just before the shows but things went off very smoothly otherwise. The order as a whole was excellent."

The number of automobiles coming to the city for the day would be difficult to determine. All open space about the circus grounds was filled, and the streets for two blocks off College-ave. and all around the blocks were lined with cars. The avenue as far as the eye could see from downtown was black with idle machines. Not less than 13,000 people flocked to the grounds for the afternoon and evening performances.

Police officers were scattered about the streets and grounds and at the loading point on Appleton-st. to keep the crowds and traffic moving, and succeeded in preventing any serious congestion. Ticket buyers outside the tents caused a serious jam for a time, but officers also relieved this situation by skilful maintenance of order.

## NELLER CAR DAMAGED BY SWAYING CIRCUS WAGONS

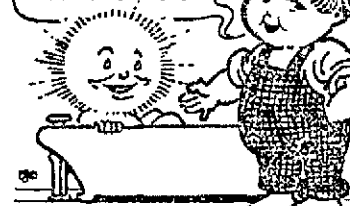

John H. Neller's large touring car was damaged while parked on Appleton-st. near College-ave. Wednesday morning when a train of circus wagons pulled by a motor truck began a zigzag, swaying motion and one of them crashed into the automobile's side. The wagons were said to be moving quite rapidly and left their straight course when the truck slowed down to make the turn onto College-ave. A number of automobiles along the curb were endangered, but the Neller car was the only one hit. A fender was crumpled and one wheel and rim damaged.

## HARRY LA FOND FINED FOR DRIVING TOO FAST

When the Black Maria had to travel 27 miles an hour to keep up with an automobile driven on College-ave. Wednesday afternoon by Harry La Fond, Officer John Kobussen decided that La Fond would be a splendid candidate for membership in Judge A. M. Spencer's speeder club. The officer therefore indorsed an application blank and La Fond appeared in court Thursday morning. He paid \$23.20 in "dues."

## CARELESS DRIVERS ARE BREAKING MAIL BOXES

Postoffice officials are taking steps to learn the identity of automobile drivers who have broken off rural mail boxes and posts at several places on Appleton-Little Chute-rd., and at other places in the county. Malicious destruction of United States mail boxes is punishable by a fine, but autoists wrecking boxes or posts by accident are expected to pay the damage.

## NEW LAW FIRM OF WILSON AND COLBY IS ANNOUNCED

Attorney Paul V. Cary of Ryan and Cary, has received a beautifully engraved announcement of the law firm of Wilson and Colby, Washington, D. C., which has offices at 1315 F-st., American National Bank building, and in New York at 32 Nassau-st. The partnership has been formed by former president Woodrow Wilson and Bainbridge Colby, former secretary of state during the Wilson administration. Mr. Cary received in-

struction under Mr. Wilson at Princeton university while the former president was an instructor there.

THE IRISH SITUATION

In the speech of De Valera in which he told something of his negotiations with Lloyd George, and declared for independence, and complete separation of Ireland from England there are two other remarkable statements. He said that "it is practically impossible to negotiate with the British government," since "the position is like asking an unarmed man to negotiate with one holding a pistol to his head." Yet DeValera himself had just come from a negotiation with the British prime minister, and the very speech in which he said that negotiation was impossible, was itself in part of a report of the result of the negotiation. It is clear that the only choice is between negotiation and war. The other remarkable statement was to the effect that the question as to whether or not there should be an Irish republic was comparatively unimportant. What the people voted for, he said, "was not for a form of government, so much," as for "Irish freedom and Irish independence." Perhaps the distinction is not important, but it is at least interesting.

What the result will be can not be guessed. Waves of pessimism and optimism follow each other in quick succession, and perhaps there is not at any particular moment any justification for either. But one thing is certain, and that is that by following the extremists the people of Ireland would lose the support of public opinion throughout the world, which has been one of their strongest weapons. The people of the British dominions will find it impossible to understand why a form of government that is good enough for them is not good enough for Ireland, and if it is rejected the Irish cause will lose enormously. The people of Australia, Canada, New Zealand and South Africa know that they are free, and, in everything except name, independent, as Ireland would be under a similar form of government.

In this country a people who fought a four years' war with their own kinsman to blot out forever the right of secession, will have no sympathy with the present demand that England actually recognize such a right. It is a certainty that England will never yield to the demands for absolute Irish independence until forced to do so after defeat in war. Insistence on it, therefore, is equivalent to a challenge to war.

It should not be forgotten that the Irish and their cause have never had stronger or more effective supporters than the English liberals. These are still the friends of Ireland. Yet they, too, feel that it will be a great mistake to reject the terms proffered. That great Liberal paper, the Manchester Guardian, said: "All of Ireland's best friends and all who regard with passionate shame the wrongs she has suffered, will hope and pray she will not now close the door of peace." Finally, there must be a strong feeling even in Ireland itself in favor of ending the controversy. There is, therefore, great danger of throwing away a worldwide support and sympathy, which, when once lost, may never be regained.

THE LEAGUE BOBS UP AGAIN

As Mr. Harding has so observantly stated, the United States considers the League of Nations a dead issue and does not want to hear it connected with her again. Still we cannot help looking with some interest at the outcome of the Silesian question, which, after much hickering along the old pre-League lines, has had to be turned over to the league after all.

Eventually Europe, with all due respect to Washington, has a deep-rooted impression that the machinery set up for world peace at Versailles is the best yet devised and ought to be employed as per agreement. The disagreement between Sweden and Finland over the Aland islands was settled in favor of the Finns; and Sweden—whose armies could have overwhelmed Finland in one fell swoop—po-

lately acquiesced. The present Silesian dispute might turn out to be a trouble volcano if the great instrument of mediation were not pointed out and used. An inter-allied split at the present time, when reparations, Ruhr occupation and the Silesian question are all points of divided international opinion, would be a catastrophe. Particularly should a bold and united front be presented to Russia, so that when the time comes for a France-bulwarked Poland to turn the balance for a strong and dependable Russian party of revolution conditions will be favorable.

Five compromises have already been presented with regard to the Silesian line and all have failed. If the League succeeds in getting its line accepted the entire world—America included—will have to acknowledge its efficiency. We shall be wise, indeed, in such an event, to urge the employment of League agencies in the carrying out of the disarmament program which we shall put forward November 11. The League is now a European institution in fact, if not in total, composition. It is controlled in council by European powers. But it has the adherence of practically the entire world with our own exception; and as a ready-made, working and respected concern we should not despise it in our plans for peace.

NEW VIEWS AS TO TARIFF REVISION

One of the Republican members of the senate finance committee is widely quoted as saying that the tariff bill will be only a temporary measure, in the sense that it will have to be changed from time to time. Business conditions are altering so frequently that no law, in his opinion, could be arbitrary and inflexible, and tariff duties must be amended from time to time to conform with the needs of commerce.

In the Middle States in particular there is noticeable, among business men and farmers, the formation of wholly new ideas regarding international trade. The tendency toward a complete shift in the general point of view as to the tariff is apparent even among partisans, who formerly espoused protection.

Yet, it hardly can be said that a change in opinion is taking place, but rather that conditions are different than they ever have been heretofore, and opinion is developing along new lines from a stage which was reached when both Republicans and Democrats cooperated in establishing the tariff commission. Institution of this was equivalent, it may be held, to a bipartisan agreement that the tariff had ceased to be a political issue and had become a business problem, to be solved and adjusted scientifically by experts.

When the tariff was a political issue, the United States was a debtor nation, with a number of small and comparatively large industries which contended that they had to have protection until they could grow large and strong enough to take care of themselves. Several other countries had similar difficulties, and most of them resorted to protective tariffs to build up several lines of manufacture.

At present the United States is a creditor nation, with practically half of the world's gold stock in its custody, and there is every economic reason to believe that it will be a creditor nation for many years to come. It is now also a nation of large scale production, a nation which must find foreign markets for certain raw materials and especially for the excess of manufactured products.

It is these and additional similar facts and conditions which are crystallizing the idea that the tariff is strictly a commercial problem and that partisan and business interests would be served better by discarding it as a political issue. Votes which have been taken in congress, in the present session, have shown bipartisan alignments, indicating departure from the former political attitude, thus bearing out actually the general drift toward the recent, unpartisan viewpoint.

The Republican member of the senate committee doubtless implies, by his statement, that tariff legislation would not only have to be flexible, but continuous, with levies modified by increase or decrease to suit business requirements and international relationships. The underlying principle of every tariff, whether for revenue or protection, is reciprocal understandings with different governments.

**SHE MEANT WELL.**  
To say the thing in acknowledgment of a favor is something of a tax on the conversational powers of most people when the recipient is unfamiliar with the conventional phrase used or gets confused in using them, comical situations occur, as in this instance reported in Harper's Magazine. Two sisters of a deceased cook called to acknowledge the flowers sent by the family. "We came to thank you for those beautiful flowers that you sent for sister," said the elder woman; and then, with a little stammer, she added, "and we hope soon to be able to return the favor."—From the Outlook.

Health Talks

BY WILLIAM BRADY, M. D.  
Noted Physician and Author.

Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

WAR PAINT.

Somehow, though I am no "beauty doctor," I receive a lot of letters from feminine, and some from masculine readers who are anxious about their "pores" and things. Many of the queries have to do with the use of war paint. It is harmful? Is it poisonous?  
There are all kinds of paints and powders and other jinnicks employed for purposes of camouflage, some of which are perfectly harmless to the user and some of which are poisonous or contain poisonous ingredients, such as lead, arsenic, mercury. I am not a chemist, nor have I analyses of all the popular war paints available, so I am unable to inform correspondents whether this and that particular cosmetic is harmless. I can only express some general views on the subject.

From the hygienic point of view, it is not only unobjectionable but perhaps beneficial for a woman to employ these cosmetics for the purpose of camouflaging natural defects. But let no girl entertain the notion that some sort of cream, powder or other face dope is essential for her make-up. The finest complexion is not purchased from the drug store; they are achieved through good hygiene, open air exercise and a kind of scientific neglect of the complexion.

Females who apply war paint so insistently as to become conspicuously beautiful betray their mental condition. That sort of hideous adornment is characteristic of the moron woman. Probably that is the reason why a stigma attaches to the conspicuous or noticeable use of war paint. Any girl who knows enough to pass a fifth grade mental test will think twice before dopping her face with stuff that can be detected by the casual observer.

Many of the inquiries I receive on this subject are from girls who are particularly prone to think that something in the nature of a "face cream" or "face powder" is indispensable in a lady's toilet. Old or prematurely aged persons often do need something greasy or oily to apply to the preternaturally dry and sallow skin. Younger persons seldom require this; on the contrary, in most young persons the natural oily secretion of the skin is excessive and troublesome, and of course, all creams are to be avoided in such circumstances.

It is a woman's right and duty to make herself look as attractive at all times as she can. At the same time she requires a modicum of brains in order to avoid making a caricature of herself in her excesses of make-up.

QUESTIONS AND ANSWERS.

The S. A. E.

Dr. Brady begs to remind some of his correspondents that the prerequisite for personal reply is a properly self-addressed envelope.

**Glare Injures Eyesight.**  
What is the effect on the eye of looking at a very bright light such as the arc light? Does it cause blindness or weaken the sight? What can one do to eyes that cannot stand sunlight? When should boracic acid be used? (J. R.)

Answer—Exposure of the eyes to intense light, or working in such light glaring in the eyes, is a frequent cause of cataract and other serious injuries to the sight. By all means consult an oculist if your eyes cannot stand sunlight. Boric acid is a feeble antiseptic often employed in eye washes or drops because it is comparatively non-irritating and non-poisonous. It has no effect on the eyesight, nor does it "strengthen weak eyes," as many imagine.

By George, here's a Mother!  
I am twenty-five, perfectly healthy, a happily married woman. With God's help I am going to have my first baby. I am very fond of sun bathing and like to know whether I may indulge. Mother is modern enough to think it will strengthen my nerves and make me more fit. (Mrs. L. S. P.)

Answer—Congratulations to your mother! For one so nearly a grandmother she displays most extraordinary good judgment. As a general rule there is nothing but benefit derived from fresh or salt water swimming or bathing by the expectant mother, and unless her own physicians forbid it for some individual reason she may indulge as freely as ever.

Twenty-Five Years Ago

Friday, Aug. 21, 1896.

C. E. Pope of Kaukauna, was an Appleton visitor. A son was born to Dr. and Mrs. Millis of Lawrence university.

Miss Della Grimes returned from a visit with friends at Milwaukee and Madison. Mrs. Henry Leach caught a pickerel near Stroeh's island that weighed 12 pounds.

It was estimated the Cuban war was costing Spain \$300,000 daily.

Frank Finnegan and family returned from Stroeh's island, where they had been camping for a month.

An advertising car with a crew of nine men were putting up paper for Buffalo Bill's Wild West show, which was to exhibit here on Sept. 1.

Howard Reeve and Karl Stansbury started on a cruise around Lake Winnebago on the yacht Ina.

TRANCE JAZZ MUSIC TO CHINA.

The hunt for the origin of jazz has led to the African jungle and to the music of cannibal feasts and orgiastic dances. But, further back it can be traced to the beginnings of civilization in China itself. Confucius, who lived nearly 2,500 years ago, edited a book of ceremonies called the "Li Ki." The book of ceremonies was venerable Chinese classic long before Confucius gave his attention to it. The sayings in the "Li Ki" represent a viewpoint of musical criticism in China which perhaps corresponds to the date assigned by the Jewish chronology for the Garden of Eden. The "Li Ki" describes music as a powerful influence for good or evil, and pictures the prehistoric syncretism as follows:

"The ears of Kang go to wild excess and debase the mind; those of Sung speak of slothful indulgence and of women and submerge the mind; those of Wei are strenuous and fast and perplex the mind; and those of Khl are violent and depraved and make the mind arrogant. The ears of these four states all stimulate libidinous desire and are injurious to virtue."

If not jazz, what else falls in with the description? Kang, Sung, Wei and Khl—all their scores have been lost. Only the monotonous drum beat which they doubtless contribute to prehistoric jazz remains in modern Chinese music.—Toledo News-Bee.

COTTON AND OXYGEN.

Because the hollow fibers of cotton are loaded with oxygen they burn with a quick flash. When you add to cotton, which is already loaded with oxygen, oil, which is also loaded with oxygen, the excess of oxygen is likely sooner or later to make the cotton burst into flame. That is how spontaneous combustion occurs among oily rags.

Timing By Light

By Frederic J. Haskin

Washington.—Giving an entire city the correct time each night by an electric light signal is a project that is being talked of since a traveler recently brought back word that Montevideo achieves correct time by this method.

Each evening at a set time, electric lights all over the South American city grow dim for an instant, then flash back to their normal brilliancy. People on the streets, in restaurants, at home, catch the signal and can set their watches and clocks by it, knowing that all the other timepieces in town will be using the same guide. By this simple device Montevideo does away with the endless variety of time which the clocks in the average city offer.

The success of the Uruguayan system is being brought to the attention of cities in this country by the Horological Institute of America.

According to A. F. Beal, chief of the time section of the bureau of standards, and a member of the institute, the electric light time signal is quite desirable from the standpoint of the public.

"So far as the power companies are concerned, however," he explained, "there are a few difficulties to consider. If the signal is operated by hand, a reliable man must be appointed to operate the switch each evening. If the man entrusted with this duty delayed giving the signal for a minute or two, or forgot to flash it altogether, there might be criticism of the company. However, mistakes are very unlikely to happen. The chances are that the time signal would never be in error more than ten seconds, and it is entirely beyond the question to assume that it would be in error as much as a minute with a reliable man at the switch. If a small mistake did occur, however, and the signal were given a few seconds too soon or too late, all the clocks of the city would still be uniform if adjusted by it.

Automatic Device Practical

"The operation of the signal could easily be made automatic. Necessary apparatus to accomplish this would involve a small initial expense, but by using an automatic signal the company would be practically free from receiving criticism because of some slight inaccuracy. Whether the signal is operated by hand or automatically there must be a reliable clock to be used as a guide. It may be figured that a couple of hundred dollars would cover the expense to the power company. It is quite possible that this would be provided by many cities by popular subscription."

In a city or town of 25,000 people, where one power plant supplies the electricity, the signal would be easiest to manage. One man could give it by throwing a single switch at eight o'clock each night.

In cities that have several plants the signal would have to be given from each base. It has been suggested that where the same circuits are used for lighting current and for power to drive heavy machinery the flash down and up of the current might possibly involve difficulties. Engineers have considered this point, however, and believe the signal would not cause any trouble.

These difficulties which a power company would have to consider and investigate thoroughly before offering to give the time signal are offset by certain advantages to the company. There are at least two advantages, Mr. Beal points out:

First, the intangible but important asset known as "good will," which

Timing By Light

By Frederic J. Haskin

means satisfaction and kindly feeling between a company and its patrons; and this would undoubtedly be stimulated by supplying the time signal. Then, second, in a more substantial way, the company would be likely to profit by giving the signal as this would be an extra advantage of using electricity in the home. Houses using gas alone would be without the signal unless they were able to catch it from some outside electric light.

The important thing about the electric time signal is that it is flashed to the people of a whole city so that they are compelled for an instant to think about the time. Instinctively, they pull out their watches or look up at the clock and note the variation. Without the signal they could get the approximate time daily at a number of more or less reliable clocks about the streets, but that involves effort and the effort is not impelled by an outside influence as in the case of the electric light signal.

Need for Such Reform

The need for a single standard of correct time is apparent in our cities. Because of the large number of such calls, telephone operators are forbidden to respond to appeals for "the right time please." Comparisons of the big clocks on towers and posts and the chronometers in windows will show that scarcely two have exactly the same time. According to Mr. Beal, most people would be surprised to know how much window chronometers are permitted to get in error, even though they may carry a card inscribed "correct time." Yet people set their watches by these different clocks and chronometers daily, each feeling that the particular one he selects as a standard is the most reliable.

The Western Union clocks which are set regularly by electricity are as trustworthy guides as our cities now offer. These clocks have as their standard the Naval Observatory timepieces at Washington, the correct time being wired to each city at noon every day. The naval observatory clock is one of the master clocks of the country. There is another at the Bureau of Standards. Such clocks vary as little as one-hundredth of a second in twenty-four hours. To compare it with the average small watch varying perhaps half a minute a day, or in other words 3,000 times as much as the master clock.

The Western Union clocks offer a sufficiently reliable time standard, but they do not begin to reach an entire population. Other clocks are used by many people who have long had the habit of consulting a clock at some particular point passed daily.

The time ball is another sufficiently accurate signal, which like the Western Union clocks, reaches a large number of people in a city, but not the entire city.

The time ball is a mariners' device and is used principally in ports. The need for a ship to get the correct time was first met by the time ball at the Cape of Good Hope in Africa, about seventy years ago. A ball was raised to the top of a high pole near the wharf, and at noon it was released so that it slid down the pole. The captain of a ship near the port could watch for the signal through his spy glass and determine by it the errors on the ship's chronometers.

This became a popular signal in ports, and is used occasionally elsewhere. On the State, War and Navy building in this city, for instance, "ball time" is the standard for many of the government clerks. The ball is raised by hand and a device set so that at exactly twelve o'clock it automatically slides down the pole.

From this ball signal, the electric light signal is sometimes referred to as the "electric time ball" despite the fact that there is no ball connected with the signal given by dimming the lights.

THE QUESTION BOX

(Any reader can get the answer to any question by writing The Appleton Post-Crescent Information Bureau, Frederic J. Haskin, Director, Washington, D. C. This offer applies strictly to information. The Bureau cannot give advice on legal, medicinal, and financial matters. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly and briefly. Give full name and address and enclose two cents in stamps for return postage. All replies are sent direct to the inquirer.)

- Q. When was the first peace movement? A. W. A.
- A. While suggestions of a movement toward peace are to be found in classical literature and in writings of the early churchmen the first effort toward world peace was initiated by the King of Bohemia in 1492. He advanced a plan for a federation of Christian nations, having an international parliament to discuss matters of common interest and a tribunal, backed by international military forces, to hear and decide all disputes between nations.
- Q. What will restore the glossy jet black to hard rubber? A. R. B.
- A. The Bureau of Standards says that the glossy jet black appearance of hard rubber can be restored by applying a small amount of glycerine and polishing with chamois.
- Q. Is there a court to which I can write to find out how a will was left? T. T.
- A. A copy of a will which has been probated may be secured from the clerk of the Probate Court of the county in which the will was recorded. A small fee is usually charged for it.
- Q. In playing pedro, is one obliged to follow suit if a pedro is played, or can he trump in even if he has suit? W. V.
- A. In playing cinch (pedro) if a plain suit is led, a player may trump, even when holding a card of the suit led; but if he does not trump, he must follow suit if he can or he is liable to the penalty for a revoke.
- Q. Why were vikings so-called? C. W.
- A. "Vik" means a fiord or inlet,

More Truth than Poetry

Oliver Wendell Holmes in his poem written in 1846 entitled "A Rhymed Lesson" gives some advice on the HAT that every man should give heed to.

"Have a good hat; the secret of your looks  
Lives with the beaver in Canadian brooks;  
Virtue may flourish in an old cravat,  
But man and nature scorn the shocking hat.  
Does beauty slight you from her gay abodes?  
Like bright Apollo, you must take to Rhoades.  
Mount the new beaver—ice itself will melt;  
Boots, gloves, may fail: the hat is always felt!"

The New Fall Trimble

MATT SCHMIDT & SON

PRISONER HAPPY HE "GOT" CHIEF

Special to the Post-Crescent  
Eau Claire, Wis.—"If I got the captain I'm damn glad of it," declared Edward O. Allen, alias Joe James, alias Ed Smith, son of Fred Allen of this city, who Wednesday afternoon wounded Capt. George Wolf, acting chief of police since Chief Elmer Sunby was killed by a bomb here July 25, in vainly attempting to escape after being placed under arrest for breaking jail at Everett Wash., where he was held on a charge of highway robbery. Allen believed he had shot Capt. Wolf fatally.

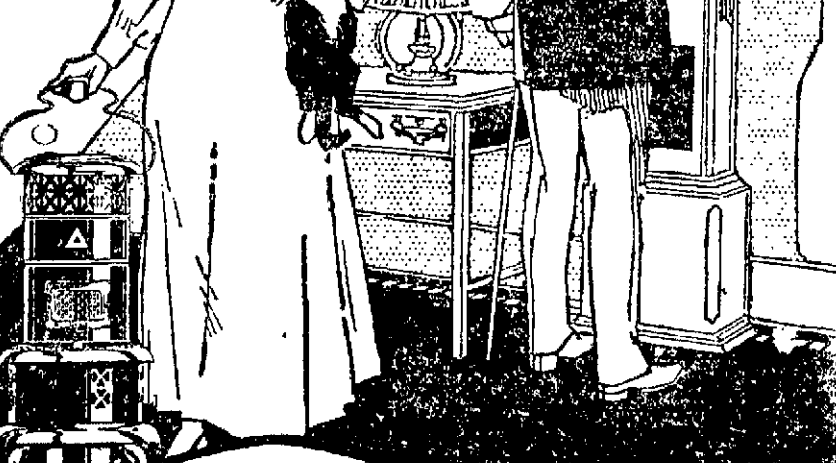

"Wolf has pestered me since I was a kid," he continued, "the police of Eau Claire have made a bum out of me. It's our business to get you fellows," he said, addressing the police and sheriff's officers around him, "and it's your business to get us." I had a life term hanging over me out there and I wasn't going to stand for a pinch as long as I was riddled up."

According to word from Everett, Wash., Allen had a life sentence in front of him, when he escaped from the jail. He was convicted of three highway robberies.

Allen was born in Eau Claire and spent his boyhood days here, going west eight years ago. When Capt. Wolf learned that Allen was in Eau Claire, he and Policeman Lennie went out to round him up. They met him on the street, placed him under arrest and took him to the city jail in his auto. On being removed from the machine Allen jerked away from his captors, pulled a gun and began firing. Wolf and Lennie both grappled with him and one of the three shots fired struck Wolf. During the struggle that followed, Under Sheriff Robert Stetehul, attracted by the shooting, tripped Allen and then floored him with the gun he had wrested from Allen's hands. Allen is now in jail.

**Shooting Excites Town**  
Coming so soon on the heels of the fatal shooting of Chief Sunby, the wounding of the acting chief created a stir. The shooting and the struggle were witnessed by many pedestrians. Capt. Wolf's wound is not considered serious.

I will not be responsible for ambulances contracted by my wife.  
Felix Weinberg, adv.

**Chases Evening Chill**  
Reliable as grandfather's clock and as portable as the cat—that's the Perfection Oil Heater. There'll be plenty of cold snaps when you'll need it upstairs and down to drive away the chill. Sturdy, durable; inexpensive to buy and to use. Come in and let us show it to you.

number of Appleton people have received invitations.

**Picnic at Park**  
A group of 17 Third ward ladies spent Thursday afternoon at Alicia park. Games furnished entertainment for the afternoon after which a basket supper was served.

**Entertains At Luncheon**  
Mrs. George Utz, 574 Franklin-st., entertained at a luncheon Friday noon at the Riverview Country club. Covers were laid for 18.

**Wed Michigan Girl**  
Miss Genevieve Lacanne of Menominee, Mich., and James VanderLuis of this city were married Monday at Menominee, Mich.

**Entertains At Tea**  
Mrs. Harry Price of Neenah gave a tea Wednesday afternoon at the Riverview Country club.

**Camp Fire Party**  
The Watwin Camp-Fire will have a party Friday evening at the Appleton Women's club.

**JUNCTION STORES DO BIG CIRCUS BUSINESS**

The circus Wednesday cleaned Appleton Junction out of everything in the line of food. The grocery store in that part of the city had a heavy run all day on eggs, butter, cheese, vegetables and canned goods which the circus men claimed were retailing here at less cost than in Madison and many stocked up heavily. At midnight the performers swamped the lunch counters with business. Only a portion of them could be accommodated. The animals were unloaded and loaded at Appleton Junction and that was also the point where the coaches of the performers were sidetracked.

**LOOK FOR WOMAN TO TELL HER THAT SON IS DEAD**

Police officers are watching the highways leading into Appleton from the south hoping to stop a new Hudson touring car in which Mrs. Schorsch, 6011 Irving Park-blvd., Chicago, is riding, and convey to her the news that her son was drowned at Chicago when a boat capsized. The woman left Chicago Thursday with two of her sons and two daughters, and was expected to reach Appleton Thursday evening or Friday morning.

The Chicago police department telephoned Chief George T. Prim, who in turn notified departments in other cities of the Fox river valley.

**New Postal Clerk**  
Following authorization of the post office department to add a regular clerk to the force of Appleton post office, Postmaster Gustave Keller has appointed Harry J. Junge, 1154 Oneida-st., to serve in that capacity. Mr. Junge has served for some time as auxiliary clerk to help take care of the increased business of the office. The appointment took effect Aug. 16.

**Expect Crowd at Picnic**  
A large crowd is expected to attend the joint picnic of Deborah Rebekah lodge and the Konevic lodge of Odd Fellows which is to be held Saturday afternoon and evening at the W. H. Burns cottage on Lake Winnebago.

Members and their families will take the 1:45 car to the beach. Games and stunts will be provided for entertainment and a basket supper will be served.

**Party for I. B. Club**  
The I. B. club was delightfully entertained Thursday evening at a picnic supper at the home of Miss Anna Knorr on the Menasha-rd. Tables were set underneath the trees in the orchard. Following the supper games and stunts furnished entertainment for the evening.

**Wed in Menominee**  
The marriage of Miss Estelline Chamberlain, daughter of Mr. and Mrs. G. L. Chamberlain, 632 Rankin-st., to Alvin A. Dost of this city, took place Monday afternoon at Menominee, Mich., the Rev. F. A. Kuder performing the ceremony. Mr. and Mrs. Dost will live in Appleton.

**W. C. T. U. Meeting**  
Mrs. A. W. Priest, 1033 Second-st., entertained the Womens Christian Temperance union Thursday afternoon at a parlor meeting. A program of readings and musical numbers was presented after which refreshments were served.

**Birthday Party**  
Miss Marguerite French entertained 15 girl friends at her home, 1200 Franklin-st., Friday afternoon in honor of her twelfth birthday anniversary. Games and music were enjoyed, and a birthday supper is to be served in the evening.

**Entertains at Dinner**  
Mrs. E. P. Carroll, 615 Oneida-st., entertained at a 6:30 dinner Thursday evening in honor of Miss Ethel Durick and Miss Ruth Ryan of this city and their guest, Miss Genevieve Nejedlo of Green Bay.

**Many Attend Dance**  
There was a large attendance at the dance given at William Meltz pavilion, Twelve Corners, Thursday evening. Music was furnished by a Sheboygan orchestra.

**Reeve Circle Party**

**Entertain At Luncheon**  
Mrs. Harry Babcock of Neenah will entertain at a luncheon Monday noon in honor of Miss Sylvia Smith. A

## FREEDOM WOMAN HAS 7 DAUGHTERS IN CONVENT

Seven sisters of Notre Dame convent in Milwaukee, daughters of Mrs. Val Gonnering of Freedom, probably the only woman in the United States who has the distinction of having seven daughters in the convent, are celebrating their jubilee at the mother house.

Mrs. Gonnering is the mother of 12 children. Three daughters entered the convent 25 years ago and four followed later. Two daughters married. Three sons, Peter, Nick and John, and their married sisters, witnessed the jubilee ceremony.

Mrs. Gonnering is 72 years old and is still in good health and able to travel. Mr. Gonnering died about 20 years ago.

## COOL WEATHER REDUCES LEMON DEMAND AND PRICE

Cool weather delivered the knockout punch to the high price of lemons. Ten days ago, lemons were selling in Appleton grocery stores for 70 and 75 cents per dozen. Now they may be bought for 50 and 55 cents.

The extremely high figure reached this season was attributed to the hot weather. Grocers declare that wholesalers were unable to get sufficient lemons to supply the demand so the price advanced. With the unusual hot wave over, the demand for cooling lemonade has decreased. Grocers give this reason for the sudden drop in prices.

## NEED CONFIDENCE TO RESTORE TRADE

Confidence as the most important factor in the resumption of normal business—confidence that governments will endure and peoples will work and pay and will beget adequate credit and financial resources, was the conclusion reached by the International

Chamber of Commerce in its first annual meeting in London in July.

A full summary of the conference in printed form has been received by Secretary Hugh G. Corbett of the Appleton chamber, and contains many interesting conclusions and resolutions affecting all business, and more especially foreign trade. The report was prepared by Merel Thorpe, editor of The Nation's Business.

Government economy, reduction of armaments, better credit relations, removal of a double system of taxation, and simplification of passports and procedures so salesmen can pass from one country to another were

among the things urged of 17 governments.

Some of the things demanded of business were simplified and uniform bills of lading for combined ocean and rail traffic; reduction of waste; machinery to settle trade disputes quickly by arbitration; a universal, unchangeable calendar; standardizing in factories; improvement of international telegraph, cable, telephone and wireless communication, and extension of postal service.

IMMENSE CROWD HEARS TALKS IN MOLOCH FACTORY

VALLEY PULP CO. WILL NOT REBUILD MILL AT KAUKAUNA

Kaukauna Is Congratulated on Her Newest Industry—Legion Asks Aid.

Kaukauna.—At least 2,000 persons observed visiting day at the Moloch plant Thursday afternoon and evening, the crowd exceeding the fondest expectations of those in charge of arrangements. About 300 people were present at the evening program which began at 7:30 with selections by the band amid the rumble of machinery and the pounding of the giant trip hammer.

Mayor Charles E. Raught was the first speaker and he acted as chairman of the meeting. He declared the cooperation of the citizens was responsible for the fact that the Moloch plant was situated in Kaukauna. He called to mind the difficulties of the building committee when many people fell down in their obligations and withdrew their pledges for stock in the company.

The speaker said he was aware how many of the citizens were being caught in the oil stock propositions which are being cast in every direction, but he asked the audience if it would not be better to put money into an industry which stands at one's very door, so that he can see it grow and watch the result of his investment.

John Conway of Appleton was the next speaker. He congratulated the citizens of Kaukauna for their efforts in getting the plant where it is.

"We wanted it in Appleton," he said, "and we tried hard to get it there, but the efforts of your men beat us to it. Since we cannot have Moloch in our city, I would rather see it here than in any other city."

The speaker said he was aware of the poor jealousy which exists between citizens of Kaukauna. Appleton has it, he said, but said he was proud it was almost entirely wiped out through cooperation of the people and he recommended the same remedy for Kaukauna.

"Forget there is a river running between North and South Kaukauna. It's all Kaukauna whether this plant is on this side of the river or on the other."

Short talks were given by Ludolph Hansen, builder of the plant and by other employees of his company. C. J. Davidson, popularly called "Mr. Moloch," and Fred Luening, former secretary of Green Bay Chamber of Commerce, also gave short talks.

In a very fine talk, F. W. Grogan, president of the company, declared that Kaukauna has opportunities in the industrial life which will make her a leader if only those opportunities are developed. The city has electric possibilities enough to run a dozen other industries.

An interesting part of the work performed for the speakers was the casting of a base for the largest Mayer tripammer that the company produces.

Legion Solicits Aid  
Next Tuesday, Aug. 23, has been set as the date for a solicitation by the American legion for funds to provide equipment and the services of a competent coach for the Kaukauna football team. This decision was reached at a meeting of men interested in football Wednesday evening in the E. C. rooms, following the regular meeting of the Kaukauna post of the American legion.

Edward Rennieke is chairman of the committee which is to approach south side business men and with the help of Frank Spindler, Mike Funk and Anton Cronce, it is expected the first trip around will be sufficient. The north side committee consists of Charles Sasnowski, Bryon Reardon, Edward Derrick and Robert Regenfuss.

The members of the committee feel they will have no trouble for the Kaukauna business men have always backed an enterprise of that sort.

A meeting of the legion will be held Tuesday evening and a report of the committee will be given. The remainder of details regarding night for practice will be completed.

Birthday Party  
Mr. and Mrs. Levi Rupert, Route 1, Kaukauna, entertained Thursday evening at a party in honor of Mr. Rupert's birthday anniversary. Supper was served and the evening was spent in games and other social enjoyment. Among those from this city who were present were Mr. and Mrs. August Stegeman, Harold Stegeman, Mr. and Mrs. W. J. Paschen, Miss Ruth Christensen, Mrs. George Winters, Jess Winters and Miss Sadie Parton. Mrs. Agnes Hunt of Chicago who is visiting here, also attended the party.

Kaukauna Personals.

Mr. and Mrs. James McClenen of Milwaukee, are spending the week here.  
Mr. and Mrs. S. G. Ruppel and

home in Milwaukee after visiting relatives here for several weeks.  
Master Danny Quinn of Chicago is spending his vacation with his uncle and aunt, Mr. and Mrs. J. W. Garvey. Mrs. James P. Garvey and son Joseph returned Tuesday from Marquette Mich. where they spent the greater part of the summer. They made the trip by auto.  
The Misses Minnie and Johanna Van Denberg of Appleton visited their parents, Mr. and Mrs. Lambert Van Denberg Sunday and Monday.  
The boosters for the Seymour Fair passed through our town Tuesday at an early hour.  
Many people from here attended the circus in Appleton Wednesday.  
Miss Anna Ver Hagen visited her parents here Tuesday.  
Miss Anna Ellenbecker of Appleton is visiting her grandmother, Mrs. James Garvey for a few days.

40 PERCENT OF PEOPLE IN STATE ARE HALF SICK

Men and Women Electrified By Startling Disclosures of Expert—Large Crowds Gather

Forty per cent of the people of Wisconsin and Michigan are half-sick, and fully ninety per cent of these can attribute their suffering and lack of energy to one vital thing, declared R. A. Robards, in an impressive statement made recently to a vast throng of people gathered in Milwaukee.

Men and women from all walks of life stood almost spell-bound as he explained to them the inner secrets and mysterious workings of Nature—how these overworked, improperly nourished bodies cause suffering and how they may be made strong and healthy again. Literally electrified by his startling disclosures and the truthfulness of his message, they awaited anxiously each new thought—each new truth concerning themselves.

"Most people today," Mr. Robards declared, "are in the same shape—literally doped up with food. They are sickly, unable to work efficiently, and too grouchy to associate with friends. It seems as though the whole world turns against them, and many of them fail to find relief. Worst of all, they do not know what is the matter with them. They keep on suffering, growing gradually worse, without knowing what to do."

"If more of these people who are half-sick and tired out all of the time would be careful of their stomachs, there would be less suffering. Most of this constant sickly feeling, nervousness, inability to sleep, constipation, indigestion and rheumatism may be traced to mistreated stomachs. That is why Garren's Tonic has been of such value to the people of this state."

One of the main points in Mr. Robards' theory is the emphatic belief that all life is centered in the stomach. "When the system becomes constipated or clogged by an accumulation of feces," he says, "the residuum thus retained slowly decomposes, produces gases and liquids, which are absorbed into the 'source of infection' and one should watch carefully for signs that the stomach is out of order." Sorbed by the intestines and later taken up by the blood, unless the bowels are cleansed and a regular habit is established, the poisons, thus taken into the system, may manifest themselves in boils, blotches, pimples, sores and other skin diseases that tend to make one unsightly. Inflammation of the bowels and liver may also result, and the absorption of bile and uric acid becomes the source of rheumatism and neuralgic infection. The stomach, Garren's Tonic, is designed to go directly to the cause of these troubles by cleansing and healing the stomach, purifying the blood streams, strengthening the nerves, rebuilding the worn out tissues, causing proper flow of the gastric juices and daily removal of waste matter which poisons the system. It is intended to remove the cause and the effect of headaches, dizziness, constipation, sluggishness, nervousness and indigestion.

Garren's Tonic is sold in Appleton by Schintz Bros., in Seymour by L. G. McCord; in Bear Creek by John M. Statton; in New London by Frayser & Co.; in Dale by Abend's Pharmacy; in Greenville by H. H. Schulze and in Kaukauna by E. A. Mayer, adv.

# 35,000 FEET OF LUMBER IS SAWED DAILY IN NEW MILL

## Knoke Sawmill Ready for Operation—Will Build Planing Mill Soon.

The new band saw mill of Otto E. Knoke of Hatley, one of the most modern of its kind in the state, was completed this week and is now in full operation. It is a steam plant and has a capacity of 35,000 feet of lumber per day. The logs and lumber are handled almost entirely by machinery even to the distribution of lumber in the yard.

The two boilers of 300 horsepower each are fed automatically with fuel from the "hog" which grinds the waste into small pieces and conveys it to the firebox. The surplus is conveyed into a fuel tank which resembles a silo. The waste material, which in

## ATTENTION, MOOSE!

### The Annual Outing will be held in Pierce Park, instead of Alicia Park as first planned, next Sunday, Aug. 21st.

former years was used for filling up depressions in the yards or was dumped into a stream furnishes more than enough fuel for the operation of the plant.

The most complicated piece of machinery in the mill and which does the work of several men is the "nigger" which throws the log on the carriage and adjusts and clamps it instantly. It is operated by levers and does away with the old method of rolling the logs with hooks.

### Big Lumber Piles

The lumber is sorted as it comes from the saw and is carried by conveyors to a car on the tramway which runs out into the yard. The tramway is 20 feet high and the cars are operated by gravitation. While one car is being unloaded in the yard another car is being automatically loaded in the mill. The tramway makes it possible to pile the lumber 20 feet high, two rows on each side.

The boilers are supplied automatically with water from a well in the mill that penetrates rock more than 300 feet. The pond north of the mill from which the logs are elevated to the saw in the second story also has this source of supply. Provision is made for keeping the water in the pond from freezing in winter time by the exhaust steam from the engine.

The pond is located close to the railroad track so that logs can be dumped into it direct from the cars. A hoist operated by a portable gasoline engine is used for loading logs piled along the railroad track.

### Build Planing Mill

The mill is equipped with a 12-inch blade band saw which works on 8-foot pulleys. The saw filing room is on the third floor where several of these saws are kept for emergency. The filing is done by specially designed machinery.

The only building that remains to be constructed is the planing mill which is to be erected at once. Not being able to find a suitable house to either purchase or rent, Mr. Knoke is building one for his family near where the fair exposition building formerly stood. Some of the first lumber turned out by the new mill is being used in it. Mr. Knoke expects also to build several residences for his workmen as soon as his planing mill is completed.

### Heals Running Sores and Conquers Piles

Also Stops All Itching of Eczema Almost Immediately

"I felt it my duty to write you a letter of thanks for your wonderful Peterson's Ointment. I had a running sore on my left leg for one year. I began to use Peterson's Ointment three weeks ago and now it is healed."

—A. C. Gilbrath, 708 Reed Street, Erie, Pa.

I'd rather get a letter like that, says Peterson of Buffalo, than have John D. Rockefeller give me a thousand dollars. It does me a lot of good to be able to be of use to my fellow man.

For years I have been selling through druggists a large box of PETERSON'S OINTMENT for 35 cents. The healing power in this ointment is marvelous. Eczema goes in a few days. Old sores heal up like magic; piles that other remedies do not seem to even relieve are speedily conquered.

It stops chafing in five minutes and for scalds and burns it is simply wonderful. Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y., adv.

## PERSONALS

Mrs. William Geenen and Miss Lillian Smith have gone to Stanley for a two weeks' visit with relatives and friends.

Morey Fleweger of Niagara Falls, N. Y., is spending his vacation in Appleton and at Kimberly.

Joseph Birmingham of Hortonville spent Wednesday in this city.

Mrs. August Brandt and children of Kewaunee are visiting Mr. and Mrs. Charles Bramer, 773 Bates-st.

Mr. and Mrs. Herman Erdman have gone to Chicago for an extended visit with relatives and friends.

Miss Dorothy Bramer, who is taking a course of training to become a nurse in a Chicago hospital, has submitted to an operation for appendicitis from which she is recovering.

Mr. and Mrs. W. B. Easing leave for Silver Lake, near Laona, Aug. 25, where they will camp for two weeks.

Mrs. Edward Wirth and children of Manitowish, visited Mr. Wirth here Wednesday and attended the circus.

C. A. Budlong of Marinette, a member of the state board of control, is in Appleton on business connected with Outagamie-co.'s penal institutions.

Miss Florence Pekel and Miss Margaret Stark leave Friday for Milwaukee where they will be guests of friends for the next few days.

Mr. and Mrs. Anton Fischer have gone to Milwaukee, where they will spend a week's vacation.

Mrs. Buelesbach and Miss Elizabeth Steinhil returned to Milwaukee Wednesday after a several days' visit in the family of Carl Keller.

Clifford Lansing of Neenah, who has lately returned from an extended visit in the south, visited Appleton friends Wednesday.

Frank Letts and family, Mackville, autoed to Oshkosh Thursday to visit relatives. Mr. Letts is carrier of rural mail route No. 4 and is enjoying his annual vacation.

Mrs. Dan Schulz, daughter Julia and son Emil of Greenville, and Mrs. Louis Becker of 965 Superior-st., autoed to Chicago Wednesday for a few days' visit with relatives and friends.

Mrs. Charles Stark and son Vernon of Antigo, autoed here Wednesday to visit friends and attend the circus.

Herman Krankel of Niagara, formerly of Appleton, called on friends here Wednesday.

Charles Sandborn is here from his home in Michigan, the guest of friends.

Miss H. Salchert of Fond du Lac, was a visitor with friends in Appleton Wednesday.

Henry Ducharme of Tomahawk, was a business visitor in this city Wednesday.

A. P. Jensen is spending a two week's vacation at his home in Eau Claire.

R. W. Scherer of Milwaukee, was a business visitor in Appleton Wednesday.

Otis L. Stage of Wabeno, spent Wednesday in this city on business.

N. J. Marcouiller of Tomahawk, was in this city on business Wednesday.

Mrs. George Smith and Mrs. Arnold of Chicago, were visitors in Appleton Wednesday and Thursday.

I. O. Wall of Los Angeles, was an Appleton business visitor Tuesday.

M. J. Barber of Battle Creek, Mich., spent Tuesday as a business visitor in Appleton.

Mr. and Mrs. Earl Sheik of Madison, visited friends here Tuesday.

E. A. Madek of Chicago, was in this city Wednesday on business.

A. T. Jones and Rexford Joslin of Green Bay were in Appleton on business Tuesday.

Louis and Anton Lustrick of Sheboygan, transacted business in Appleton Tuesday.

## American Santa Claus Is Swamped With Toy Orders

### Toy Company of America Forced to Extend Itself to Keep Up With Demand.

If Santa Claus in his polar abode could get a glimpse into the factory of the Toy Company of America these days his kindly eyes would protrude with satisfaction and if he has any fears of a lean pack next Christmas they would immediately dissolve.

Orders for Christmas toys now are coming in rapidly, said R. O. Kuehn-

the lumber must be sawed down to lengths and thicknesses available for the various types of toys. This is figured carefully so that there is as little waste as possible.

### Thru Many Processes

After the lumber has been reduced to the proper sizes, it is passed to a department where it is sawed according to the various patterns, planed, joined and sandpapered to suit requirements. After this has been accomplished, the exacting process of painting and finishing is begun.

## NOTICE

Dr. Larsen is leaving for Davenport, Iowa, August 21, to attend the Lyceum and National Convention at the Palmer School. He will return and resume business, Monday, Aug. 29th.

sted, and the company's workshops are humming with activity to keep even with the demand. The finishing departments of the factory are branch houses of wonderland itself, with their innumerable rows of lifelike animals and fowls finished in natural colors. Then there are handsome liberal-sized pieces of furniture comprising parlor and bedroom suites for the larger girl who likes to have a house "just like mamma has."

All of the company's toys are made of wood. The transition of the giant tree of the forest into the things which delight children most is as interesting as it is wonderful. The lumber, in regulation mill sizes, enters the factory's own sawmill and here the first step in toymaking takes place. First,

Most pieces are "primed" in paint mixtures before the actual finishing is done. In the priming vats the wood is allowed to soak up all of the mixture it will. It is then ready for enameling which is done by a jet. The enamel is sprayed out under a pressure of 60 pounds and expert enamelers direct the spray evenly over the articles. When the enamel is dried, the various toys are retouched by hand. This work is done by girl artists who are skilled in wielding the brush.

After the retouching is done and the paint dried, the toys are ready for shipment, and are placed either in separate cartons or in lots. Most of the pieces made are turned out in lots of 1,000 unless a rush order is received, in which case 500 or even 100 pieces are turned out as quickly as possible.

Place Small Orders

Although the factory is running to capacity, no large orders are being received, Mr. Kuehnstend said. Large houses are buying in small lots but they buy steadily each week. He believes they are doing this to prevent overstocking. By placing their orders each week they are more able to accurately anticipate the demand and provide for it.

Since the opening of the factory a year ago, nationally known wholesalers and jobbers all over the country have become steady customers. Orders are received from Saskatoon in the north and Atlanta in the south and from New Brunswick in northeastern Canada to Portland, Ore., and San Francisco on the west coast. Fifty-seven people are now employed in the establishment.

The design of all toys made is entirely original with the factory and before new patterns of animals are turned out in quantities, the management is satisfied that the toys will look as lifelike as possible. The company is now conducting an extensive advertising campaign and is laying stress on the durability, pleasing finish and originality of its product.

### CICERO MAN MUST SPEND 7 YEARS IN REFORMATORY

Walter Wenzlaff of Cicero, arrested on a serious charge preferred by a woman of the township two months ago, was tried in municipal court Thursday morning and was sentenced to seven years' imprisonment in the Green Bay reformatory.

### COUNTY CLERK WAITING FOR HUNTING LICENSES

Although county clerks of several counties have received their quota of hunting licenses from the state department, as yet County Clerk Herman J. Kamps has not received his supply.

A deer hunting license costs 15 cents more this year than formerly. Hunting licenses will be issued in two forms, with a deer tag and without a deer tag. The deer tag license will cost \$1.25 instead of \$1.10 but the other will cost only \$1 as usual.

The cost of a trapping license has been advanced 150 per cent. A trapping license will cost \$2.50 this year instead of \$1.

### JOB SEEKERS ORDERED TO GET OUT OF CITY

Six young men who are "bumming" their way in search of work, and two who took free passage to Appleton were arrested by the police Wednesday night for trespassing on railroad property. They gave their names as Leo C. Schend, Thomas Bond and Paul Mielke, Kenosha; Arthur Johnson, Frank Neumann and Edward Nisula, Ashland, Ohio; Leo Wershal and Loyal Schmalitz, Kaukauna. The six were taken before Judge A. M. Spencer in municipal court Thursday morning and were released following an order from the court ordering them out of the city.

## GOES OUT FIRST TIME IN MONTHS

Minneapolis Woman Gains Nineteen Pounds in Five Weeks Time

By Taking Tanlac

"When I began taking Tanlac I was so weak I could hardly walk across the room; but after finishing my first bottle I walked down town and got me another. The first time I had been out of the house in three months," said Mrs. Ed. Kilbourn, 1610 Clinton Ave., Minneapolis, Minn.

"For three years I could hardly eat or sleep, and felt so run down all the time life seemed hardly worth living. Everything I ate made me sick and seemed to form a lump right in the pit of my stomach, and kept me in awful pain for hours and I never could get a good night's sleep on account of nervousness."

"But in five weeks after I started taking Tanlac I gained nineteen pounds in weight, was doing all my housework and could get about like I could when a girl. My appetite is simply fine now, and I feel well and strong in every way. The way Tanlac has restored my health and built me up is the talk of our neighborhood."

Tanlac is sold by leading druggists everywhere.

## FRECKLES

Don't Hide Them With a Veil; Remove Them With Othine—Double Strength

This preparation for the removal of freckles is usually so successful in removing freckles, and giving a clear, beautiful complexion that it is sold under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of Othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength Othine; it is this that is sold on the money-back guarantee adv.

1-4 H. P. \$17.50  
These are guaranteed new 1750 R. P. M. Motors with pulleys for 110 volt, 60 cycle A. C. current.

SORDEL ELECTRIC CO.  
Milwaukee, Wis.

# RED CROWN Gasoline

## A Perfectly Balanced Ration for Your Motor

It starts vaporizing at about 95 degrees Fahrenheit (less than blood heat) winter or summer—gives a steady flow of rhythmic power insuring smooth acceleration and delivers an abundance of sustained power for the hard pull, or tremendous speed.

Your motor is eager to do more. There is a response under your right foot that gives you confidence for the emergencies which arise every day. You spin along with a keen exhilaration. It's the perfect chain of boiling point fractions that does the work.

# Buy Red Crown

—the High-Grade Gasoline

# 20.6c a GALLON

It delivers the utmost in service. It keeps your engine running smoothly. That steam-engine-like piston stroke imparted by Red Crown Gasoline means long life to your motor.

No racked engine causing frequent overhauling; no delay from lack of power—just step on the gas and away you go.

To pay an exorbitant price for gasoline is utter waste. Cut down your operating cost and increase the efficiency of your car with Red Crown.

## KAUKAUNA HAS TWO NEW OUTFIELDERS FOR SUNDAY'S GAME

Feldhausen and Feltgraff Will Work in Gardens—Grossel Is to Hurl.

Feldhausen, one of the best outfielders who ever graced an outer garden in the Fox River Valley league, is back in the Kaukauna fold and will be part of the team which plays the Brandts here Sunday afternoon. Feldhausen jumped from Kaukauna to Green Bay several weeks ago but decided to go back with the Electric City gang.

The outfielder is about as classy as they make 'em in the gardens but he is a poor sticker. He usually bats at the bottom of the list and his hits are as scarce as hen's teeth. There are mighty few balls in centerfield that get away from him, however.

Feltgraff is another new man in the Kaukauna lineup to make his valley league debut on Sunday. Feltgraff plays in left field and is said to be quite a star.

Sunday will be the first opportunity for Appleton fans to see Grossel, the new Kaukauna pitcher, in action. Kaukauna fans declared after last Sunday's game at Kimberly that he is the class of the league and would have won his game if his support had been up to standard. Grossel has a reputation as a regular pitcher and fairly good hitter.

The remainder of the team will line up pretty much as usual. Here are the men and the positions they will play:

Stegerman, c. Grossel, p. Jonsson, 1b. Thompson, 2b. Johnson, ss. Wittling, 3b. Feldhausen, cf. Krueger, rf. Feltgraff, lf.

Kimberly baseball authorities have asked that the game with Appleton scheduled for Sept. 4 at Kimberly be transferred to Appleton and the request has been granted. It is believed a much larger crowd will attend the game here than at Kimberly. That means that all the remaining games on the Brandt schedule will be played in the home park.

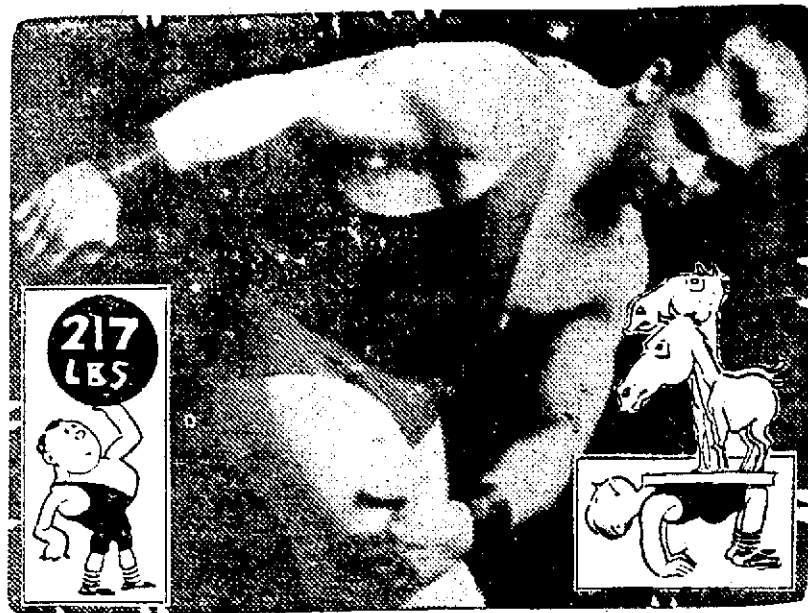

## PLAY SATURDAY FOR MILL LEAGUE TITLE

Kimberly and Combined Locks teams of the Interfactory league will mix in the first of three games to determine the league championship at Combined Locks park Saturday afternoon. The teams fought the league season in a tie for first place and on extra series was arranged to settle their dispute.

Both teams have been playing good baseball. They contain several Fox River Valley league players and others who are starting with amateur teams.

The second game will be played at Kimberly where the third also will be played if it is necessary to play a third game. Hot collections are to be taken at the games.

## How Strong Are You?

Ignatius Neubauer

**Boston**—How strong are you? Can you lift a 217-pound weight over your head with one hand? Can you lift 2000 pounds on your back? Can you hold a team of horses on your chest?

Ignatius Neubauer, ex-gob and Harvard student, can.

In the navy they called him "the strong man." At Harvard he is known as "Tarzan."

When Neubauer trotted into Harvard gymnasium with Instructor Dan Kelley's class, he lifted everything in sight. The class was demoralized for the day.

**His Exercise**  
He hoisted a 217-pound weight above his head with one hand. He climbed under a table and lifted 2000 pounds on his back.

His greatest feat is to hold a team of horses on his chest.

He does this by means of a specially constructed platform which he adjusts on his knees and shoulders. He rests on his hands and feet while the horses are driven on.

Neubauer isn't muscle-bound. His muscles don't even bulge until he

starts doing stunts. He weighs 160 pounds.

### Measurements

His measurements are:  
Neck—16½ inches.  
Chest—43 inches.  
Waist—32 inches.  
Thigh—24½ inches.  
Calf—16½ inches.  
Ankle—14 inches.  
Biceps—16½ inches.  
Forearm—14 inches.  
Neubauer is 25. His height is 5 feet 6 inches.

### Lives Natural

He doesn't sacrifice pleasure in order to keep his strength. "I eat what I like best, but not in excess," says Neubauer.

"I drink coffee. Occasionally I smoke."

"Live natural. That's the secret of being strong."

The Harvard "Tarzan" is superintendent of physical education in the public schools at Serenack Lake, N. T., where Christy Mathewson is trying to regain his health.

His great strength doesn't make him slow. He can hoist a 200-pound weight over his head eight times in 30 seconds.

Some speed! Some strength!

## SEMI-PRO TEAMS WANT TO ARRANGE FOR GAMES HERE

Brandts Won't Have Any Difficulty Securing Post-season Battles.

August Brandt could book enough games to keep his team playing all winter. Every mail brings requests for dates from teams within a radius of 300 miles.

A bid for a game any time after Labor Day was received Thursday from Andrew Rube Foster of Chicago, chairman of the colored league of America. In his letter, Foster states that he would like the opportunity of pitting his dusky Chicago Giants against the Brandts this fall. He figures that the Giants are the classiest team of the league and could give fans in this section a pleasing exhibition of baseball.

Eight teams compose the league in which the Chicago Giants are said to have made such a good showing. The other teams are the American Giants, St. Louis Giants, Columbus Eagles, Detroit Stars, Taylor's A. B. C's, Kansas City Monarchs and the Cincinnati Cuban Stars.

Klein's Racines under the management of Ernie Johnson, want a game here Sept. 11. The game here would be one of five extra games they desire to play this fall as they are also angling for bookings with Oshkosh, Menasha, Fond du Lac and Marinette. According to the letter, the Racines have lost only one game this season and whipped the Waupaca state champions early in July by winning two games out of a three-game series.

## GET A HUNCH AND HURRY TO TRAPSHOOT TOURNAMENT

By United Press Leased Wire  
Chicago—Winner of the 1921 Grand American Handicap shoot at Chicago Aug. 26 may be another hunch-shooter.

Past records of the big amateur classic show that hunches have played a big part in unexpected cleanups.

Captain Jack Wulf won in 1916 at St. Louis, playing a hunch that an Indian hat, which he wore, was lucky.

John Henry came to the tourney at Chicago in 1915, got a hunch that he could win, borrowed a gun and went in and lead the field.

George Lorimer came to Chicago in 1915 without a gun. He got a lucky hunch, bought a gun on the grounds and won.

Last year Albert Ivins came to the shoot with the hunch that because his birthday came on the day of the Grand American shoot, Aug. 27, that he would be lucky. He won.

Hunch shooters have never been discovered among the woman and junior divisions yet. But they're liable to crop out any time.

A hunch is no good unless you know when to pull the trigger on the bird.

## Watching The Scoreboard

Yesterday's hero: Fred Bratchl, a rookie, battled for Red Faber in the eighth inning and knocked two runs that gave the White Sox a 7 to 6 victory over the Yankees.

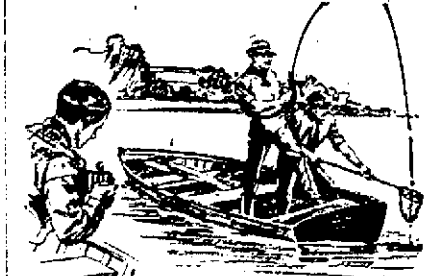

The Athletics knocked Sotheron out of the box and beat the Indians, 6 to 4.

Brooklyn had an easy time taking a double header from the Cardinals 11 to 5 and 4 to 1.

Karr's double and Pittinger's single in the eleventh inning gave the Red Sox the first game against the Tigers, 5 to 3, and Detroit's loose playing gave them the second, 5 to 0.

Jacobson's homer was the only run scored off Walter Johnson, the Senators beating the Browns, 13 to 1.

The Pirates increased their lead to six and one half games by taking a double header from the Phils at 4 to 3 and 3 to 2.

## The Fishing Enthusiast

The man who claims as his hobby, the quest of wary fish, surely has as part of his equipment a KODAK. In that way the story of the "big one" that did not get away is corroborated. Man's fondest memories are often of his fishing trips. Preserve their memory.

## IDEAL PHOTO SHOP

## RICKARD AGAIN IN BAD FOR SHIPPING FILMS

By United Press Leased Wire  
Chicago, Ill.—Tex Rickard, fight promoter, is to have a little chat with Kenesaw Mountain Landis, federal judge, soon.

Rickard, out on \$10,000 bonds for bringing his Dempsey-Carpentier fight pictures into Illinois, is subject to a fine of \$1,000 or a year in jail.

He was fined in New York for bringing the pictures from New Jersey. He first tried his picture out on wounded soldiers. The public comes next.

## Deserves Another Chance

The hand of fate reached out and prevented Mlle. Suzanne Lenglen from playing for the biggest stake in woman's tennis—America's tennis championship.

She logs, by default, following a training spell soon after her match started with Mrs. Molla Burescott Mallory.

Let's give Suzanne another chance. Here is an opportunity for America to show true sportsmanship.

A special match with our American champion, with the title as the reward for the victor, should be arranged. America does not want to feel that there is a flaw of fate in the title holding.

Even as the disappointment Suzanne feels, it is not more than every tennis enthusiast has at this moment.

### Sentiment

Wallie Pipp, slender first base guardian for the Yankees, wants to be in a world series this fall for his father's sake.

Of course, Wallie would enjoy the spoils as much as the average American, but Mr. Pipp Sr. is a terrific fan. The elderly Pipp is now president of an enamelware plant at Terre Haute, Ind. He spends most of his summers following Wallie and the Yankees around.

He gets more pleasure in seasons on Wallie than one that he does out of watching Babe Ruth beat one clear out into the country air.

### Facts

Do these names mean anything to you?  
Hornsbv, Hoffmann, Adams, Coveleskie, Bancroft, Ruth, Frisch, Harris and Kelly?

## FORMAL OPENING OF GUN CLUB NEXT SUNDAY

Formal opening of the new clubhouse at Appleton Archery and Shooting club will take place on Sunday. Ice cream and other refreshments will be served by the club and there will be some shooting.

The clubhouse was finished about a week ago and is well suited for the needs of the club. It contains space for storing sporting equipment and is used with much pleasure and other sportsmen.

Refreshments are being made for the club and registered members to be held Sunday and Monday, Sept. 4 and 5. Refreshments are expected from expert shots from all parts of the middle-west.

## MARQUETTE WILL BEGIN GRID WORK IN FEW WEEKS

Milwaukee, Wis.—With the warm weather a part of the last, the boys are now turning up their football rigs and getting ready for the coming season.

Coach Jack Dunn of the Marquette University team, has put out his instructions and the Marquette players are expected to report in Milwaukee on Sept. 1. After a week's training on the State street campus, during which time the boys will be outfitted and given physical examinations, they will leave for Lake Butlin.

According to Coach Dunn, the Marquette team will be divided into two sections, the varsity squad and the second string men. The varsity squad will leave for Lake Butlin on Sept. 3, while the other squad will not leave until the trip to the training camp until a week later.

## GRID PRACTICE OPENS AT PRINCETON, SEPT. 14

Princeton, N. J.—Football practice at Princeton university will begin September 14, with the varsity coaching staff unchanged, according to an announcement by George R. Murray, graduate manager. There will be 10 coaches, six for the varsity, one for the scrubs, and three for the freshmen.

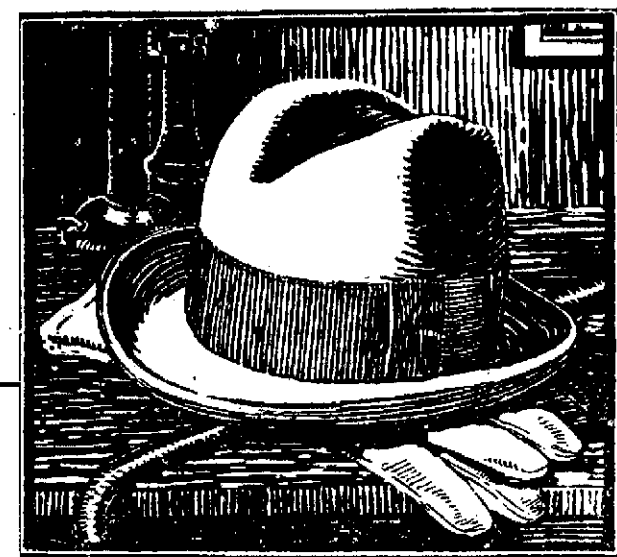

W. W. (Bill) Roper, will act as head coach, with Keene Fitzpatrick, track coach, as first assistant and trainer.

## HOMERS PLENTIFUL IN NATIONAL LEAGUE

By United Press Leased Wire  
New York—With nearly one-third of the season yet to be played, National league sluggers already have rolled up 102 more home runs than they made during the entire season of 1920. The four homers cracked out yesterday by Kelly and Bancroft of the New York Giants and Gibson and J. Scott of the Boston Braves, brought the total to date up to 363. Last year's total for the entire season was 261. The American leaguers, despite the services of Babe Ruth, are trailing the nationals by one circuit clout, with a total to date of 362. The American total last season was 368.

## WAS A "BEAR CAT"

"My wife was never an angel, but after five years of liver and stomach trouble she became a 'bear cat.' No doctor or medicine helped her and we thought there was no help for her. Our grocer told me of Mayr's Wonderful Remedy, which had helped him for same trouble, so I brought home a bottle, but she promptly threw it out. I got it back and after a week coaxed her into taking it. She is now enjoying the best of health and disposition." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Druggists Everywhere. adv.

## If You're Without Cash Use Your Credit Here

You, no doubt, have seen the new Fall styles in men's and women's clothing in the shop windows—perhaps your friends are already wearing them while you are still going about in your Summer togs.

We know that you want to wear the newest—every man and woman prides himself or herself in being well dressed, but oftentimes is prohibited from wearing the kind of clothes he or she would prefer because of financial circumstances. If such is the case with you, come to us. You can select whatever you desire from our high-grade apparel and arrange to

### PAY A LITTLE EACH PAY DAY

In this way you will not notice the money you pay for your clothes.

## Advance Millinery Opening Saturday, August 20th

**SEE OUR WINDOW DISPLAY TO-NIGHT**

The soft becoming Feather Hats are particularly smart, as are also the stunning Turbans of duvetyne or velvet.

Sailors have again taken their place among the season's favorites. We have them in Hatters' plush, velvet, beaver, felt, etc.

Prices are surprisingly low considering style and quality of material and range from \$5.00 to \$25.00.

We particularly specialize in Hats ranging in price from \$7.50 to \$15.00.

# GEENEN'S

Quality Dry Goods

NEVER HAVE HATS BEEN MORE BECOMINGLY OR ATTRACTIVELY FASHIONED THAN THIS SEASON'S MODES. NOVELTY OF CONTOUR PRODUCES INTERESTINGLY IRREGULAR SHAPES, AND NEW TRIMMING EFFECTS ARE NO LESS UNEXPECTED. BRISTLING QUILLS, SWOOPING FEATHERS, AND JAUNTY RIBBONS ARE FAVORITE GARNITURES.

Turbans are winsome, in new colorings and trimmings. Lace or fringe falling over the brims is noticeable on many.

## Wise Buyers Are Taking Advantage of the Bargains Offered at the CONTINENTAL'S SALE

# FOOD PAGE

**T**HE food value of meat is chiefly, for its tissue building material, called protein. The other substances found in meat aid the growth and development of the body. Meat has a higher food value than most vegetables. No other foods repair bodily waste so perfectly or provide so much heat or muscular power than the better grades of meat.

*For Perfect Health*  
*Use Better Meat*

## CARD OF THANKS.

WE WISH to express our sincere thanks to the many friends and neighbors, American Legion, Ladies Auxiliary, Fraternal Order of Eagles, Rev. Mr. Tippet, and the Rev. Mr. McCoy and committee of the First Congregational church, for their beautiful floral offerings and several acts of kindness at the time of our bereavement in the return of our son's remains from France.

Mr. and Mrs. W. R. Johnston and family, Mr. and Mrs. Thos. W. Heiss and family.

WE WISH to thank the friends and neighbors for the kindness and sympathy shown us during the illness and death of our beloved husband and father, also for the beautiful floral offerings. Especially do we thank the Rev. Theo. Marth for the kind words of condolence spoken.

Mrs. Wm. Neumfeldt and children. WE WISH to thank relatives, friends, neighbors and more to the Rev. Theo. Marth for the kindness and sympathy shown us during the illness and death of our beloved husband and father, also for the beautiful floral offerings. Especially do we thank the Rev. Theo. Marth for the kind words of condolence spoken.

Mrs. Wm. Neumfeldt and children.

## NOTICE FOR ADMINISTRATION AND NOTICE TO CREDITORS.

STATE OF WISCONSIN. COUNTY COURT, Outagamie County—In Probate.

In re estate of Fannie Le Mieux, deceased.

Notice is hereby given, that at the regular term of said Court, to be held on the first Tuesday of September, A. D. 1921, at the Court House, in the City of Appleton, County of Outagamie and State of Wisconsin, there will be heard and considered the application of Robert M. Le Mieux for the appointment of an administrator of the estate of Fannie Le Mieux, late of the City of Seymour, in said County, deceased.

Notice is hereby further given, that at the regular term of said Court to be held at said Court House on the first Tuesday of January, A. D. 1922, there will be heard, considered and adjusted, all claims against said Fannie Le Mieux, deceased.

Notice is hereby further given, that all such claims for examination and allowance must be presented to said County Court at the Court House, in the City of Appleton, in said County and State on or before the 31st day of December, A. D. 1921, or be barred. By the Court,

JOHN BOTTENSEK,  
 Judge.

A. M'COMB, Attorney, Green Bay, Wis.  
 8-19-25-26

## OFFICIAL PROCEEDINGS

Council Chambers, Appleton, Wis., August 17th, 1921, 7:30 p. m.  
 Council met pursuant to regulations. Roll called; all Aldermen present, except Aldermen Wood and McCann. In absence of Mayor and President

of the Council, Alderman Fose was elected acting Mayor.

Reading minutes of previous meeting was, upon motion, dispensed with.

Committee on Finance reported that they had examined accounts from No. 519 to 528, inclusive, in the sum of \$58,811.86, and recommend that same be allowed as charged.

Resolved, that report be adopted, accounts allowed and clerk instructed to draw orders for several amounts.

On motion to adopt, the ayes and nays were called, all Aldermen voted aye, adopted and so declared.

Deed of S. 10' of lots 5 and 6, block 25, Second ward, from Appleton Pure Milk Company, was presented and read.

Resolved, that report be adopted, and on motion same was ordered placed of record and filed.

Board of Public Works beg to report that they have examined the work of improving the several streets under contract with the Western Improvement Company, and find that said work has been done as per plans, specifications and agreement, and we have accepted same and recommend that they be paid the city's share in cash and that the City Clerk be instructed to issue the necessary certificates and bonds against the property abutting said improvement.

Board of Public Works, E. L. Williams, Clerk.

Dr. and Mrs. J. R. Scott of Los Angeles, Calif., are visiting friends and relatives here.

## REVISE RULES FOR CAMP GROUNDS ASSOCIATION

Directors of the Methodist Byron Camp Grounds association will be elected hereafter under new rules adopted by the present board of directors in a regular meeting in July. Articles of incorporation were adopted by the board at that time.

Rules adopted by the board provide that there shall be 14 directors for the association. Four of these must be district superintendents of the state, five must be active members of the Wisconsin Methodist conference and five must be active members of Methodist churches in the district.

Membership in the association was reduced from \$10 to \$5. The articles of incorporation were signed by the Rev. Walter A. Hall and Martin De Young.

## SAND AND GRAVEL PLANT TO BE OPENED NEAR HERE

A modern sand and gravel washing and screening plant is to be established at Binghamton, 12 miles from Appleton, by the Waupaca Sand and Gravel Co. which now operates a plant near Amherst Junction. Announcement of establishment of the new plant follows acquisition of the Wisconsin and Northern railroad by the Soo Line. It was stated that opening of the plant was delayed because of high freight rates prior to the sale of the W. and N.

A branch office of the company is to be established in Appleton. The plant will have a daily capacity of about 30 cars of graded material and will be ready for operation early next spring.

## HUSBAND DESERTED HER; COURT GRANTS DIVORCE

Mrs. Ella Martha King was granted a divorce in municipal court Friday morning by Judge A. M. Spencer from Thomas C. King, whereabouts unknown. The decree was granted on the grounds of desertion, non-support and infidelity, and was not opposed by the defendant, who disappeared in 1919.

Two children, Thomas, Jr. and Charles, were placed in custody of Mrs. King and she is to receive \$30 a month alimony when her former husband is located.

A. B. Ames and family of Kenosha visited friends here Thursday while autoing north.

Hugh G. Corbett, managing secretary of the chamber of commerce, began his annual vacation of two weeks Friday.

Mrs. A. Moede and son Frederick of Oshkosh, are visiting friends and relatives here.

Mr. and Mrs. F. W. Johnson left for Chicago Friday morning on an automobile trip. They were joined at Neenah by Mr. Johnson's parents.

Edward Murphy and sons, Edward Murphy, Jr., and Ronald Murphy of Chicago, who have been visiting Mr. Murphy's parents, have returned home.

**A  
Matchless  
Ironing  
Result**

**"Just See What My Simplex Can Do!"**

## A Demonstration of Modern Ironing

Saturday is the last day of our special demonstration of what Modern Ironing really is. With a Simplex Ironer a whole family's laundry can be beautifully ironed in an hour. The old hand-iron way would take a day. The Simplex Ironer is such a wonderful convenience and labor saver because it does iron nearly everything, and always with the smooth even finish that you cannot possibly get with the comparatively light pressure of the hand iron.

Miss Davis of the Simplex Ironer Company will be in the store all day tomorrow. She will iron just the kinds of things you have in every wash—and you can see for yourself how quickly and efficiently the work is done. Watch the window tomorrow and ask Miss Davis any question you may have on the Simplex Ironer.

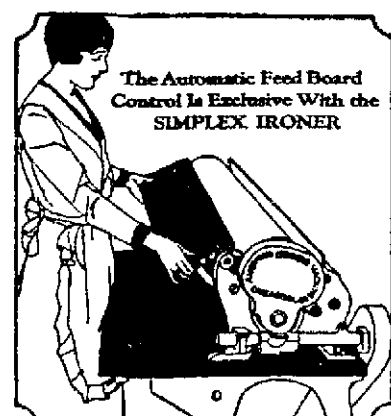

## Beautifully Ironed Table Linens

Beautifully ironed table linen is the first thing noticed on the table. A cloth with a lovely even finish is no problem. It's all in the ironing. With a Simplex, it's easy. You can afford to be generous in the use of your linens as it only takes three minutes to perfectly iron a table cloth on the Simplex. Besides you sit down in comfort while ironing.

## The Famous Feed Board Control

The Simplex owes its ease and simplicity of operation to the famous feed board control. Men's shirts and soft collars are ironed in a surprisingly short time. House dresses, curtains, and all the endless supply of children's little dresses, shirts and rompers that are soiled every day. The cost of operation is only a few cents for current and gas.

Be sure and see Miss Davis tomorrow—the last day of her demonstration.

Come in and see for yourself how simple and safe the SIMPLEX really is. The control of the Simplex permits a perfect freedom of movement; an advantage you will quickly appreciate.

## BLACK

MONTHS AGO, whisperings from Paris indicated Fashion's affinity for Black. Today authorities declare that Black has completely captivated the mode. Leading courtesies of New York and Paris have now placed Black at the top of the Fall and Winter calendar of Fashion. The best gowned women will appear in Black on all occasions throughout the coming season.

To imagine Black as the color of youth, the playmate of Fashion, the happiest of gay colors last season would have staggered the imagination. To imagine anything else but black in these roles today is well nigh impossible. The showings of Black throughout the store tomorrow offer unequalled assortments at the most acceptable of prices.

## Black Gowns

Let Black be too sombre, Fashion has devised a new material—Satin Back Canton Crepe, which reverses itself to make a trimming. Black gowns in Canton Crepe, crepe satin and Jaquard crepe are trimmed with beads, with monkey fur, with ribbon or embroidery. A Black model from Worth, with touches of Pansy embroidery, is \$48. It features the new fan panels and an irregular hem line.

Another black gown is trimmed with wheels of gros grain ribbon—another has the entire skirt covered with gros grain ruffles.

## Black Hats

To complete the ensemble of Black, Belnord has sent several remarkable models in the last few days. Small turbans and tricornees as well as large shapes are developed in black. Many are trimmed with ostrich. One black one is relieved by a graceful white quill. Another has an aigrette at the side.

## Black Shoes

Black satin, Black suede, matt kid and patent leather reflect the vogue of Black in the new shoes. The "Mitzi" pump radiates grace in line. The Black satin tongue is embroidered in Black silk. The slender heels and exquisite finish make this model a fitting item of the Black costume.

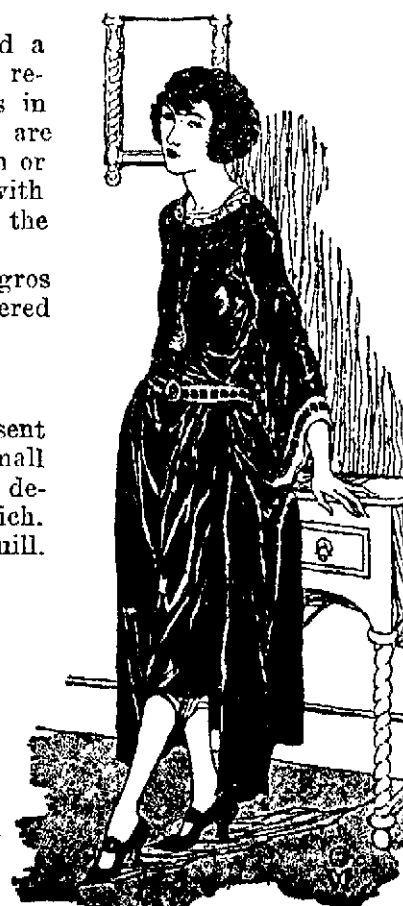

Strap pumps in Black are also numbered among the later arrivals for Fall.

## Black Blouses

Black georgette makes a new blouse for Fall. The trimmings are unique—small squares of white celluloid around the neck and sleeves. Another Black blouse uses the new shade of Mohawk for contrast. Still other blouses of georgette are solely Black, quite unrelieved by any other color.

Accessories of Black necklaces, pocket books, gloves and hose will have the attention of smart women this season.
